Eksamens en slaagvereistes

In calculating marks, General Regulation G12.2 applies.

 - i. honours examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and

The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Module-inhoud

*Hierdie inligting is slegs in Engels beskikbaar.

This module is positioned as an entry-level postgraduate module and not as an advanced level or practical application of undergraduate theory. The module content is more abstract than many other subjects, since KPK 780 provides the foundation for Strategic communication management (SKO 780) and Development communication (OWK 780). This module provides a sound theoretical/philosophical foundation for understanding current and emerging trends in the theory and practice of corporate communication management. Specific emphasis is placed on the difference between modern and postmodern approaches to this field of study, contrasts between European, American, Asian and African theory and practice, and the influence of seminal research projects like the "EBOK" and "Excellence" studies on practice. The role of professional and subject-related associations within this globalised field of study is also explored. The purpose of this module is to empower students to critically evaluate current and emerging theories/views through regular class debates and other forms of critical thinking. This module also provides a broad theoretical foundation in preparation for future master's degree studies. This includes emphasising the nature of theory and the components of a meta-theoretical framework for a specific research question.
