Programinligting

Hierdie inligting is slegs in Engels beskikbaar.

The PhD in Leadership is a research degree, requiring the completion of supervised as well as independent research resulting in a thesis.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Toelatingsvereistes

- Relevant master's degree.

Addisionele vereistes

- i. Research methodology module (unless exemption is granted)
- ii. Research proposal
- iii. The Director of the Centre may, however, set additional admission requirements.

Selection for admission will require the submission by candidates of a written pre-proposal which briefly outlines their intended research topic supported by a short motivation. In addition to this the candidate is expected to present his/her understanding of the key academic articles in the field of leadership to an internal panel.

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Eksamens en slaagvereistes

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Navorsing

The research component comprises a thesis and two research articles submitted for publication. Once the student has registered for the PhD, the candidate will work under the guidance of a supervisor to develop a detailed research proposal in accordance with Centre guidelines and regulations. The proposal must be defended during a formal presentation presented to the Centre PhD committee and must be officially approved by all relevant committees before the candidate can commence with his/her research. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University. A public defence of the final thesis is compulsory and forms part of the final examination. Three research articles, based on the candidate's research, must be submitted for publication to a recognised accredited journal. At least one of these must be accepted for publication. These articles are a compulsory condition for the degree to be conferred on the candidate. The research component contributes 100% towards the total requirement for the degree.
