Module content

This elective is designed to introduce students to the theory and practice of Competitive intelligence, including its activity (or processes), organisational structure, and 'products' (i.e. deliverables). In short: What is intelligence? How does it differ from market research and other, more conventional, streams of management information? What are its key roles? How does the intelligence function work? How is it structured in a corporate environment? What added-value does it deliver to business decision-makers?

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
