### Module content

This module will provide students with the essential techniques, skills and insights that Senior Executives and Management require to successfully, strategically and effectively plan, manage, monitor and execute throughout the life cycle of a project. Students will be able to assess, identify and mitigate the potential and forecasted constraints, risks and issues that could be or will be over time causing failure within a project. Then to be able to report, communicate and manage key stakeholder's expectations, suppliers and team members' delivery through effective facilitation.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
