Department	Gordon Institute of Business Science
Period of presentation	Semester 2

Module content

The course will provide an in-depth learning experience, exposing students to a new paradigm in “Entrepreneurship management”. It expands on the material covered in the MBA core course on entrepreneurship and innovation while challenging the principles learned during project management, operations management and management accounting and their relevance (or lack of relevance) in the context of an uncertain start-up or radical new innovation. The course is targeted at MBA students who aim to launch a new high growth business venture or new innovation within an existing business.
