### Module content

\*Closed - BSocSciHons (Psychology) only. Requires departmental selection.

This module examines brain-behaviour relationships with the aim of understanding the components of complex psychological processes. The primary features of cerebral dysfunction in neurological disorders, traumatic brain injury and executive functioning will be addressed. Various neuropsychological assessment techniques will also be introduced.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
