

University of Pretoria Yearbook 2019

Topology 790 (WTW 790)

Qualification	Postgraduate
Faculty	Faculty of Natural and Agricultural Sciences
Module content	<p>General topology: Concepts such as convergence, compactness, connectedness, separation axioms and continuity are introduced in topological spaces. Their basic properties are treated. Important topologies like the product topology and the quotient topology are discussed.</p> <p>Algebraic topology: Homotopy, the fundamental group, covering spaces, homotopy type.</p>
Module credits	15.00
Programmes	BSchons Mathematics
Prerequisites	Real analysis on third-year level
Contact time	2 lectures per week
Language of tuition	Module is presented in English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 2

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of each student to familiarise himself or herself well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
