

University of Pretoria Yearbook 2019

Conservation ecology 364 (ZEN 364)

Qualification Undergraduate

Faculty [Faculty of Natural and Agricultural Sciences](#)

Module content This module is intended to provide students with the skills and knowledge that are essential for the conservation of biodiversity. The module focuses on conservation theory and practice (e.g. endangered species, habitat loss, overexploitation, climate change), and has a practical component. The students will be actively involved in planning and executing field projects, and will be responsible for analysing and presenting the results. The students will gain valuable theoretical and practical experience in the field of conservation ecology by being exposed to a number of different taxa.

Module credits 18.00

Programmes [BSc Ecology](#)

[BSc Entomology](#)
