## BCur Clinical Nursing Science Clinical Nursing Science, Health Assessment, Treatment and Care (10131093)

**Minimum duration of study** 3 years

**Contact** Prof FM Mulaudzi [mavis.mulaudzi@up.ac.za](mailto:mavis.mulaudzi@up.ac.za) +27 (0)123541908

### Programme information

The Bachelor of Nursing Science (Education and Administration) [BCur(I et A)] provides professional nurses registered with the South African Nursing Council (SANC), with the opportunity of obtaining post-basic, professional qualifications in any of the following areas of specialisation (major speciality):

- i. Nursing Management
- ii. Nursing Education
- iii. Community Nursing Science
- iv. Clinical Nursing Science, with a selected subspeciality in the second year of study, namely:

- Advanced Midwifery and Neonatal Nursing Science
- Neonatal Nursing Science
- Child Nursing Science
- Medical and Surgical Nursing Science: Critical Care Nursing: General
- Medical and Surgical Nursing Science: Critical Care Nursing: Paediatric
- Medical and Surgical Nursing Science: Critical Care Nursing: Trauma and Emergency Nursing
- Medical and Surgical Nursing Science: Operating Theatre Nursing
- Clinical Nursing Science, Health Assessment, Treatment and Care.

Successful completion of the degree programme will also provide graduates with the opportunity to further their studies, in their chosen fields of specialisation at postgraduate level, provided there are sufficient applications.

Candidates who comply with the admission requirements must compile a suitable curriculum in the selected area of specialisation, in consultation with the head of department.

The curriculum mentioned in iii above, must be reviewed on an annual basis in consultation with the head of department.

### Conferment of the degree

The Bachelor of Nursing Science (Education and Administration) [BCur(I et A)] is conferred on students who comply with all the requirements for the degree programme and who have completed all required practical and/or clinical training.

The degree certificate will be endorsed with the specific area of specialisation (and the relevant subspeciality, in the case of Clinical Nursing).

**Note:** Also consult the General Regulations.

## Admission requirements

Registration as a nurse with two years' experience

Please note that Grade 12 learners cannot apply for these programmes.

Additional requirements:

- At least one year of appropriate experience in the workplace, relevant to the area of specialisation and approved by the head of department; excluding other nursing-related coursework.
- Students must have access, at least on a part-time basis, to clinical training facilities which are suitable for the proposed area of specialisation and approved by the head of department.
- With the exception of the subspecialties Critical Care Nursing – General; Trauma and Emergency Nursing and Operating Theatre Nursing, students must also be registered with the South African Nursing Council as Midwife/Accoucheur.

## Additional requirements

Proof of registration with the South African Nursing Council as a General Nurse.

- i. Candidates who intend following Community Nursing Science must also be registered with the South African Nursing Council as Midwife/Accoucheur.
- ii. At least two years of appropriate experience in the workplace as registered nurse (excluding other nursing-related coursework) for Nursing Management and Nursing Education.

### Additional admission requirements for Clinical Nursing Science

- i. At least one year of appropriate experience in the workplace, relevant to the area of specialisation and approved by the head of department; excluding other nursing-related coursework.
- ii. Students must have access, at least on a part-time basis, to clinical training facilities which are suitable for the proposed area of specialisation and approved by the head of department.
- iii. With the exception of the subspecialties Critical Care Nursing – General; Trauma and Emergency Nursing and Operating Theatre Nursing, students must also be registered with the South African Nursing Council as Midwife/Accoucheur.

## Other programme-specific information

A minimum of 360 credits is required, subject to:

- i. The successful completion, at 100, 200 and 300 level, of two approved major subjects (core modules) within a given area of specialisation.
- ii. Successful completion of all prescribed fundamental modules.
- iii. Satisfactory performance and successful completion of the required practical work and/or clinical training specified for the field of specialisation in question.
- iv. Successful completion of an approved curriculum (degree programme) compiled of modules equivalent to ten year modules.

## Transitional measures

Students will be exempted from corresponding modules passed in the preceding seven (7) years.

## Examinations and pass requirements

### Academic exclusion from further study

- a. In accordance with the stipulations of the General Regulations, a student must complete the degree programme for which he or she is registered within the prescribed minimum period of study plus two years.
  - b. Subject to the stipulations mentioned in a. above, a student in the School of Health Sciences, who fails a year of study for the second time, will only be allowed one opportunity to repeat a year of study, and will have to submit a written application for readmission to the programme in accordance with the prescribed procedure.
- In accordance with the stipulations of the General Regulations, no minimum year or semester mark is needed for admission to the examination, and all registered students are admitted to the examination automatically.
  - The final mark for a specific module in Nursing Science, Physiotherapy, Radiography, Occupational Therapy and Human Nutrition (at least 50% is required to pass) is calculated from the examination mark as well as the mark compiled from the evaluation of a student during continuous, objective and controlled assessment opportunities during the course of the quarter/semester/year. At least one formal assessment per module is set as the minimum norm, and students will be exposed on a continuous and regular basis to self-directed assignments in order to promote reflective learning.
  - In the case of modules with practical components, students are required to also comply with the applicable attendance requirements with regard to acquiring practical skills before a pass mark can be obtained for the module.
  - There are two main examination opportunities per annum, the first and second examination. In respect of first-semester modules, the first examination opportunity is in May/June and the second examination opportunity in July. In respect of second-semester modules, the first examination opportunity is in October/ November and the second examination opportunity in November/December of the same year. Where students need to work additional clinical hours to be allowed to do a second examination, the relevant head of department will determine the second examination opportunity.
  - Only two examination opportunities per module are allowed. If a student fails a module at the second examination opportunity, the module must be repeated.
  - A second examination opportunity in a module is granted to students in the following cases:
    - If a student obtains a final mark of less than 50% in the relevant module at the first examination opportunity and thus fails.
    - If a student does not obtain the subminimum in the examination, as required for a specific module.
    - If a student does not sit the examination in a module at the first examination opportunity due to illness or extraordinary circumstances.
  - Students intending to sit the second examination due to the reasons mentioned above, must register for the second examination opportunity 24 hours after the results have been made public.
  - If a student fails a module at the first examination opportunity, the examination mark obtained in the relevant module at the second examination opportunity will be calculated as the final mark. The marks obtained with continuous evaluation during the course of the quarter/semester/year will not be taken into calculation. If the student passes the module at the second examination opportunity, a maximum of 50% is awarded as a pass

mark to the module in question.

- If a student could not sit the examination in a module at the first examination opportunity due to illness or extraordinary circumstances, the continuous evaluation mark, together with the examination mark obtained in the module in question at the second examination opportunity, will be calculated as the final mark obtained in the module.
- The School of Healthcare Sciences applies the General Regulations, according to which a student requiring a limited number of modules to complete his or her degree, may in terms of faculty regulations, be admitted to a special examination in the modules in question.

## Promotion to next study year

- A student must pass in all the prescribed core modules of a specific year of study to be promoted to a subsequent year of study. A student can only be promoted to a subsequent year of study if the student has not failed more than two fundamental modules of seven weeks each per semester or one module of 14 weeks per semester. A non-negotiable prerequisite for admission to the final year of study is pass marks in all the core and fundamental modules of the preceding years of study. Refer to the programmes for fundamental modules in each discipline.
- A pass mark refers to a final mark of at least 50%.
- Modules with practical and clinical training credits cannot be passed unless all the prescribed clinical hours and practical activities have been completed to the satisfaction of the relevant head of department.
- The Chairperson of the examination moderating meeting may, after assessing the student's total profile, grant special approval to be promoted to the next year of study.
- The exception is the Department of Human Nutrition, where the regulations as applicable in the Faculty of Natural and Agricultural Sciences regarding the modules presented by that Faculty, are relevant.
- Modules can only be taken in advance or repeated if it can be accommodated in the existing examination timetable.
- A student who must repeat a year of study may, with the approval of the Chairperson of the examination moderating meeting and the relevant head of department, be allowed to take fundamental modules of the subsequent year, if he/she complies with all the prerequisites for the relevant modules. No adjustment to existing timetables will be allowed.

The following fundamental modules are relevant:

- Department of Nursing Science: SLK 110, 120; FSG 251,252
- Department of Physiotherapy: SOH 254; FSG 251, 252, 261, 262; SLK 210, ANP 210; GMB 252, 253, 254; FAR 381, 382
- Department of Occupational Therapy: ZUL 110; SEP 110; SLK 210, 220; FSG 251, 252, 261, 262; ANP 210; RPD 481, GNK 286
- Department of Human Nutrition: FLG 211, 212, 221, 222; BCM 251, 252, 261, 262; FAR 381, 382, VDS 322; VDB 321
- Department of Radiography: FSG 251, 252, 262; GNK 286; ANP 210.

## Practical/clinical/internship information

Certain hospitals and healthcare facilities have been approved for the purposes of practical and/or clinical training. Students will be required to complete their practical work and/or clinical training at these facilities.

## Pass with distinction

The degree is conferred with distinction on a student who has obtained an average of at least 75% in the required 300-level modules.

## General information

### Faculty certificates

- i. Students who exit from the programme before completing the degree, and who fulfil all the requirements for registration of an additional qualification with the SANC, will be issued with an applicable Faculty Certificate.
- ii. Listing or registration with the SANC can be obtained in the following areas of specialisation, depending on the specific modules passed:
  - a. Listing: Handling of Medicine in Nursing and the Physical Evaluation of Patients
  - b. Registration:
    - Nursing Administration
    - Nursing Education
    - Community Nursing Science
    - Advanced Midwifery and Neonatal Nursing Science
    - Neonatal Nursing Science
    - Child Nursing Science
    - Medical and Surgical Nursing Science: Critical Care Nursing – General
    - Medical and Surgical Nursing Science: Critical Care Nursing – Paediatric
    - Medical and Surgical Nursing Science: Critical Care Nursing – Trauma and Emergency Nursing
    - Medical and Surgical Nursing Science: Operating Theatre Nursing
    - Clinical Nursing Science, Health Assessment, Treatment and Care

## Curriculum: Year 1

**Minimum credits: 98**

### Fundamental modules

Nursing dynamics 110 (VDN 110) - Credits: 14.00

Nursing dynamics 120 (VDN 120) - Credits: 14.00

### Core modules

Clinical nursing science 120 (KVG 120) - Credits: 10.00

Systems of nursing practice 160 (VPT 160) - Credits: 20.00

## Curriculum: Year 2

### Minimum credits: 187

- Successful completion of the second year results in an additional qualification in the field of speciality at the South African Nursing Council (SANC).

### Core modules

Clinical nursing science 250 (KVG 250) - Credits: 33.00

Clinical nursing science 260 (KVG 260) - Credits: 34.00

Nursing science practical work 201 (VGK 201) - Credits: 50.00

Systems of nursing practice 260 (VPT 260) - Credits: 60.00

---

## Curriculum: Final year

### Minimum credits: 97

- To qualify for the additional qualification in Nursing Management at SANC, the following subjects should be done together with VPB 110 & VPB 120: VPB 160, BDO 110 and BDO 120.
- To qualify for the additional qualification in Nursing Education at SANC, the following subjects should be done together with VOW 110 & VOW 120: DNE 110, DNE 120 and DNE 160.

### Fundamental modules

[Nursing research methodology 100](#) (VNM 100) - Credits: 22.00

### Core modules

[Industrial and organisational psychology 110](#) (BDO 110) - Credits: 10.00

[Industrial and organisational psychology 120](#) (BDO 120) - Credits: 10.00

[Didactics of nursing education 110](#) (DNE 110) - Credits: 20.00

[Didactics of nursing education 120](#) (DNE 120) - Credits: 20.00

[Didactics of nursing education 160](#) (DNE 160) - Credits: 10.00

[Clinical nursing science 300](#) (KVG 300) - Credits: 40.00

[Nursing education theory 110](#) (VOW 110) - Credits: 15.00

[Nursing education theory 120](#) (VOW 120) - Credits: 15.00

[Nursing management 110](#) (VPB 110) - Credits: 25.00

[Nursing management 120](#) (VPB 120) - Credits: 25.00

[Nursing management 160](#) (VPB 160) - Credits: 10.00

[Systems of nursing practice 360](#) (VPT 360) - Credits: 35.00
