<b>Period of presentation</b>	Semester 1

## Module content

### Introduction to Philosophy

The two semester modules at first-year level introduce students to four main subfields of philosophy, namely metaphysics, epistemology, ontology and ethics. This module introduces students to two of these subfields, namely epistemology and metaphysics with reference to the work of a range of scholars from the Global South and the West. Students will become acquainted with the nature of philosophical reflection by exploring a number of classical philosophical themes in each subfield. Throughout the module there is an emphasis on developing those critical thinking, reading and writing skills that are required in Philosophy, while students become acquainted with the power of critique as critical judgment and discernment.
