<b>Period of presentation</b>	Semester 1

### Module content

The rationale for the module is that all businesses are increasingly exposed to the global context, whether in terms of their competitors, their markets or their supply chains. As such, it is incumbent upon all managers to have an appreciation of the opportunities and threats that exist in doing business on an international scale. To operate effectively in a global context, managers need to be able to evaluate differences between countries in terms of issues such as economic policy, cluster development, industry structure, and the impact of these differences on firm behaviour. This module aims to provide students with the skills necessary to develop global business strategies and meet the challenges entailed.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
