### Module content

The aim of the module is to provide students with additional analytical tools and methodologies derived from recent developments in the economics of strategy and organisation such as game theory, Transaction Cost Economics (TCE), Property Rights Theories (PRT), and evolutionary economics.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
