### Module content

This elective is aimed at students who either wish to enter into the management consulting profession or to understand the components of management consulting in order to be able to manage consultants in their senior management or executive positions. In many instances organisations do not receive the full benefit of retaining management consultants due to the inability of their own executive teams to work with these professionals in a way that brings positive results to the organisation. The management consultant is only as good as the brief they are given and can only add value in an enabling environment.
