### Module content

An advanced study is made of the theory and practice of critical security studies, with the inclusion of emerging and new security issues. This also involves a comparative analysis of the security policy, strategy and doctrine of selected states; the approaches to and institutionalisation of multilateral security cooperation in the major regions of the world; as well as peace support operations initiated by international organisations. At the strategic level, attention is given to contemporary strategy of military action and deterrence strategy.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
