Mathematics in the early years 1 122 (JGS 122)

Qualification	Undergraduate
Faculty	Faculty of Education
Module credits	12.00
Prerequisites	No prerequisites.
Contact time	2 lectures per week
Language of tuition	Module is presented in English
Department	Early Childhood Education
Period of presentation	Semester 2

Module content

This modules focuses on fostering young children's development of early mathematical concepts. The theoretical knowledge informing early mathematics is brought into perspective; and the content areas in early mathematics such as numbers, shape, measurement, patterns and classification are explored. Other key content areas of focus examined in the modules are the development of early mathematical concepts through the use of everyday play and other activities; learning environments for early mathematics; and supporting learning in early mathematics.
