### Module content

\*Closed – admission to this module is subject to departmental selection for the MA in Clinical Psychology. This module is interdependent on modules KLS 871 Psychotherapy (Theory) and KLS 803 Psychodiagnostics, namely as the application of psychotherapeutic paradigms and psychometric tests at various clinical/psychological institutions under supervision of senior clinical psychologists. The module also deals with analysis/diagnosis and the description of the applied processes. Critical evaluation of the psychotherapeutic process forms part of a scientific approach to the practice of psychotherapy. Professional and ethical principles are also addressed in the practice of psychotherapy.
