<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	50 hours per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Public Health Medicine
<b>Period of presentation</b>	Year

### Module content

The module will enable the participant to create a messaging strategy that can be used in all marketing materials. To develop a marketing programme appropriate for the target audience using the most effective possibilities such as public relations, advertising, website (and other internet platforms), promotional seminars, conferences and trade booth opportunities, downloadable materials, direct marketing (offline and online), packaging, event sponsorships and merchandising promotions. The participant will be taught the skills to develop a communications programme that complements the marketing programme and provides timely and comprehensive internal, external and strategic communications initiatives in an integrated approach. One of the key issues will be the level of the health message and whether it makes an impact on the improvement of uptake of healthcare services.
