## BScHons Mathematics and Mathematics Education Algebra and Analysis (02240183)

**Minimum duration of study** 1 year

**Total credits** 137

**NQF level** 08

### Programme information

The programme consists of seven honours modules (five modules of 15 credits each from the Department of Mathematics and Applied Mathematics and two modules of 16 credits each from the Department of Science, Mathematics and Technology Education) as well as the compulsory research project (30 credits). Elective modules should be selected according to the prerequisites of these modules.

Candidates are required to familiarise themselves with the General Regulations regarding the maximum period of registration and other requirements for honours degrees.

### Admission requirements

- An appropriate bachelor's degree
- At least a final grade point average of 60% at final-year level for all mathematics/applied mathematics modules
- Required that the candidate has completed the following modules with at least 60% each:
  - Real analysis at third-year level
  - Linear algebra at second-year level
- Complete preceding degree will be considered for selection.

### Promotion to next study year

The progress of all honours candidates is monitored biannually by the postgraduate coordinator/head of department. A candidate's study may be terminated if the progress is unsatisfactory or if the candidate is unable to finish his/her studies during the prescribed period.

### Pass with distinction

The BScHons degree is awarded with distinction to a candidate who obtains a weighted average of at least 75% in all the prescribed modules and a minimum of 65% in any one module.
