### Programme information

This programme provides theological training and formation aimed at the needs of churches. It comprises two aspects, namely a general denominational aspect and a specific denominational aspect. The structure of the programme is determined by a balance between the (1) Biblical scientific dimensions, (2) historical and systematic theology and (3) applied dimensions in the field of theology.

The outcome that the programme aims to achieve, is theoretically supported formation aimed at a broad spectrum of ministerial needs. For this purpose certain elements of the programme are presented in partnership with churches that support the programme.

A student who registers for this programme has to submit his or her curriculum to the Dean for approval at the beginning of each year.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded in the calculation of the APS.
