<b>Prerequisites</b>	CDS 771
<b>Contact time</b>	Blended mode
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	School of Health System and Public Health
<b>Period of presentation</b>	Year

### Module content

Six case studies that involve either clinical cases or public health cases (such as outbreaks or other public health scenarios). The cases will be presented online, one every 6 weeks, during the second year of the diploma. The scenarios will be accompanied by questions that will require desktop research and thought as well as a mastery of the materials learned during the first year, in order to answer the questions well. Each case study will be worth 5 credits and an overall mark will be provided for the six case studies. A detailed study guide will be provided online.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
