## Principles of quantitative research 818 (GIJ 818)

<b>Qualification</b>	Postgraduate
<b>Faculty</b>	<a href="#">Gordon Institute of Business Science</a>
<b>Module credits</b>	16.00
<b>NQF Level</b>	09
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	21 Hours
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

### Module content

This module aims to expose students to a number of key topics related to quantitative research methodology with the purpose of equipping students with the ability and skills to successfully execute a quantitative research project. More specifically the module intends to provide students with an understanding of the philosophies underlying quantitative research, a selection of research methods used to collect primary data for a quantitative research study and to ensure that they are able to draw a sample to collect quantitative data from respondents. The module also attempts to equip students with the ability to develop a conceptual model in order to illustrate the proposed relationships between variables and equip students with skills to analyse quantitative data.
