| Contact time | 28 contact hours per 3 week cycle |
| Language of tuition | Module is presented in English |
| Department | Gordon Institute of Business Science |
| Period of presentation | Semester 2 |

Module content

The implementation of the basics of finance studied on the MBA requires numerical techniques and computational skills. Excel, the most widely used computational tool in finance, is a natural medium for deepening our understanding of the materials. This elective is organised across subject areas relating to specific aspects of finance: corporate finance, portfolios, options and bonds. Topics will include some or all of the following: corporate finance models; portfolio Models; event studies and bonds.
