<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Educational Psychology
<b>Period of presentation</b>	Semester 1 and/or 2

### Module content

This module will equip students (teachers) with the necessary knowledge and skills to be able to successfully do curriculum planning and teach learners with visual impairment. Focus will fall on teaching methodology as well as the screening and assessment of learners with visual impairment. The underlying approach guiding this module is to create flexible learning environments that can accommodate individual learning differences for learners with visual impairment. Students will also be exposed to practical application of newly acquired knowledge and skills.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
