

## University of Pretoria Yearbook 2021

## Homogenisation of partial differential equations 836 (WTW 836)

Qualification Postgraduate **Faculty** Faculty of Natural and Agricultural Sciences Module credits 1.00 09 **NOF Level Prerequisites** Functional Analysis, Measure Theory, Partial Differential Equations at honours level **Contact time** 1 lecture per week Language of tuition Module is presented in English **Department** Mathematics and Applied Mathematics

Period of presentation Semester 1 or Semester 2

## Module content

\*Consult with the Head of the Department of Mathematics and Applied Mathematics about the availability of this master's module in a particular year.

Review of functional analysis, Sobolev spaces and variational problems; rapidly oscillating function; periodic composite materials; homogenisation of elliptic problems; multiple scale method; two-scale convergence and applications.

The information published here is subject to change and may be amended after the publication of this information. The **General Regulations** (**G Regulations**) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the **General Rules** section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
