# 1. DISCIPLINARY CODE FOR STUDENTS

## (Rules prescribed by the University Council)

### PREAMBLE

The University of Pretoria's Disciplinary Code: Students is based on, and informed by, the principles of academic integrity and honesty, as well as appropriate behaviour within the wider institutional context. These principles are at the core of the University's everyday activities and its main reason for existence, namely the academic education and training of students, as well as the fostering of norms and values of excellence in a wider sense. The Code recognises the fact that the safeguarding of the aforementioned principles is an inherent requirement for the preservation of the integrity of the various qualifications awarded by the University. Safeguarding such principles is essential for establishing and maintaining an environment that is conducive to sound academic practices in general, and contribute to shaping individuals who will add value to society.

The Code provides for corrective and punitive measures to be applied in appropriate circumstances. It aims to provide guidance to students to correct behaviour where necessary. Furthermore, the Code promotes the fair and lawful adjudication of disciplinary enquiries and the imposition of appropriate disciplinary measures.

A specific objective of the Code is to, in the interest of both students and the University, initiate and finalise all disciplinary proceedings as speedily as possible without undue delay.

In terms of this Code the University shall implement all reasonable measures to protect the interests of students, staff members, contractors and members of the public, on all its campuses or other premises. The Code also has as its objective the promotion and protection of the interests of the University as an educational institution.

The Code is not intended to be a comprehensive set of rules and regulations that makes provision for every possible objectionable and punishable act by a student, and as such, the rules and regulations below will not be assigned an overly literal or strict interpretation. Consequently, when evaluating the conduct of a student to determine whether such conduct amounts to misconduct, and/or when considering whether the specific conduct of a student is covered by a specific rule or charge, the determining factor shall at all times be the misbehaviour or wrongdoing such a rule or regulation is aimed at.

### 1.1 Definition of Misconduct

## 1.2 Procedure in Case of Misconduct

- 1.2.1 General
  - 1.2.1.1 In the event of an alleged transgression of this Code a charge of misconduct shall be laid with the Office of the Registrar.
  - 1.2.1.2 The Registrar is not obliged, but reserves the right to, at any time inform the parent/s or legal guardian of a student (notwithstanding the student having reached the legal age of majority), of any disciplinary investigation and/or proceedings conducted against the student in a manner which the Registrar deems appropriate under the circumstances.
  - 1.2.1.3 If the student is a minor, the student's parent/s or legal guardian will be informed of the proceedings and may attend the proceedings. An agreement entered into with a student who is a minor, will be done with the assistance of his or her parent/s or legal guardian.
  - 1.2.1.4 The Registrar may appoint a University staff member (full-time or part time) or a person from outside the University with appropriate legal qualifications, who may act as an initiator in proceedings before the Disciplinary Committee (Students).
  - 1.2.1.5 If the Registrar is of the opinion that a formal charge of misconduct against a student is warranted, the Registrar may have such a charge formulated.
- 1.2.2 Expedited informal procedure
  - 1.2.2.1 The Registrar may in his or her personal capacity, at his or her discretion, investigate a complaint, finalise the matter and impose a penalty by agreement with an alleged transgressor, in an expedited manner, or refer a charge of misconduct for investigation.
  - 1.2.2.2 The Registrar may impose a penalty as is provided for in paragraph 1.3.1.2 and summarily dispose of the matter. In the event that any other penalty provided for in paragraph 1.3 is agreed upon, the agreement between the Registrar and the student must be confirmed by the Disciplinary Committee (Students).
- 1.2.3 Temporary suspension or removal of a student from University-controlled premises or a residence pending a disciplinary procedure
  - 1.2.3.1 The Registrar may, at his or her discretion, if there are reasonable grounds for suspecting that a student has committed serious misconduct, or in any other appropriate circumstances, temporarily suspend a student from a residence or deny a student access to any or all University-controlled premises pending the results of a disciplinary investigation.
  - 1.2.3.2 The Registrar is entitled to act in the manner set out above if he or she is of the opinion that it is reasonably necessary in order to protect the interests of the student involved, other students, contractors, staff members, members of the public and/or the University.
  - 1.2.3.3 The student shall be entitled to make verbal representations to the Registrar should he or she be of the opinion that the grounds referred to in paragraph 1.2.3.1 above do not exist or do not justify his or her temporary suspension, or that compelling additional circumstances exist that should be considered.
  - 1.2.3.4 The Registrar shall consider the aforementioned representations and exercise his or her discretion in a fair and just manner, taking into account all the relevant circumstances.
- 1.2.4 Formal plea and penalty procedure
  - 1.2.4.1 In the event that a charge or charges have been formulated against a student, and the student –
    - a. freely and voluntarily admits the charge/s against him or her;
    - b. has been given the opportunity to make representations to the Registrar on the appropriate disciplinary measures and relevant aspects; and
    - c. has freely and voluntarily entered into a plea and penalty agreement with the University; the Registrar may take disciplinary steps against the student in accordance with paragraph 1.3.
  - 1.2.4.2 The charge, admission of guilt and disciplinary measures imposed shall be noted and recorded by the Chairperson of the Disciplinary Committee (Students), in the presence of the student, or the student and/or his or her parent/s or legal guardian, or the student and/or his or her qualified and practising legal representative. A judge from the Constitutional Tribunal may attend the proceedings as an observer as envisaged in paragraph 1.4.4.

- 1.2.4.3 The Chairperson of the Disciplinary Committee (Students) may, should it at any time before the student is found guilty appear that the student wishes to revisit his or her decision regarding the plea and penalty agreement or wishes to make further representations, remit the matter to the Registrar for further consideration.
- 1.2.4.4 The Chairperson of the Disciplinary Committee (Students) may, if appropriate, remand the matter for purposes of a formal disciplinary proceeding and/or formal submissions in mitigation and aggravation on behalf of the student and the University respectively. The matter shall then be reconvened and an initiator appointed in accordance with paragraph 1.2.1.4.

### 1.2.5 Formal disciplinary procedure

- 1.2.5.1 If charges against a student have been formulated as envisaged in paragraph 1.2.1.5 and the student denies the charge/s against him or her, the Registrar may convene a disciplinary investigation by the Disciplinary Committee (Students). The Committee will determine whether the student is guilty of the alleged misconduct and decide on disciplinary measures in accordance with this Code.
- 1.2.5.2 The written charge shall be compiled and delivered to the student concerned. In the document the student shall be summoned to appear at the specific date, time and venue stated in the document in order to answer to the charge.
- 1.2.5.3 A student shall be entitled to be accompanied by his or her parent/s or legal guardian and/or qualified and practising legal representative during the disciplinary proceedings. The Chairperson of the Disciplinary Committee (Students) may give permission to a third party other than the parent/s or guardian of the student to assist the student. This third party will be allowed to provide general support to the student, but shall not act as a legal representative.
- 1.2.5.4 Should the student decide to retain the services of a qualified and practising legal representative, such services shall be retained entirely at his or her discretion and at his or her own expense. The name and contact details of such legal representative must be submitted to the Registrar prior to the date of the disciplinary proceedings. Neither the University nor the student shall, during the course of a disciplinary proceeding, have any claim against each other pertaining to the costs incurred by a party in respect of legal representation.
- 1.2.5.5 The procedure followed during any particular disciplinary proceeding shall be determined by the Chairperson of the Disciplinary Committee (Students), taking into account the rules of fair administrative justice. The aforementioned proceedings shall include that the student –
- a. is provided with sufficient details of the charge/s against him or her;
  - b. is afforded reasonable time to prepare for the proceedings;
  - c. does not have to incriminate himself or herself;
  - d. is asked whether he or she understands the charge/s and is requested to enter a plea of guilty or not guilty to the charge/s;
  - e. is permitted to call witnesses to give evidence in his or her favour;
  - f. is allowed to cross-examine anyone who gives evidence against him or her;
  - g. is allowed to present his or her case to the Disciplinary Committee (Students);
  - h. is allowed to address the Disciplinary Committee (Students) on any relevant aspect;
  - i. is allowed to present mitigating circumstances if found guilty of any charge/s against him/her;
  - j. is entitled to be informed of any further internal processes (any possible appeal), which he or she may pursue and the possible consequences or results of such processes; and
  - k. is upon request, provided with written reasons for any decision made by the Disciplinary Committee (Students).
- 1.2.5.6 The Disciplinary Committee (Students) shall keep minutes of the proceedings or ensure that such minutes are kept in a manner that it deems appropriate.
- 1.2.5.7 If so requested in writing by a student who has been found guilty of any charge, the Disciplinary Committee (Students) must furnish written reasons for its decision and/or disciplinary measures imposed within a reasonable period after such request has been made. After submission of the mentioned written reasons, the Disciplinary Committee (Students) will have fulfilled its function.

## 1.3 Penalties

- 1.3.1 Upon finding a student guilty of misconduct and having heard evidence in mitigation, the Chairperson may impose any one of, or a combination of the following penalties:
- 1.3.1.1 reprimand the student;
  - 1.3.1.2 temporarily or permanently deprive the student of any right or privilege associated with his or her registration as a student at the University;
  - 1.3.1.3 impose a fine not exceeding the amount determined from time to time for this purpose by Council, and/or order the student to pay an amount which amounts to the actual damage caused by the student and/or to reimburse any other party for damages suffered;
  - 1.3.1.4 compel the student to perform community service within the University for a specified number of hours as are deemed to be reasonable given the nature and seriousness of the transgression and the evidence presented to the Committee;
  - 1.3.1.5 deny the student the right or privilege to register for a particular module, or revoke a credit obtained in a module;
  - 1.3.1.6 suspend the student's registration for a specified period;
  - 1.3.1.7 permanently expel a student from the University;
  - 1.3.1.8 deny the student the privilege of re-registering as a student at the University; and/or
  - 1.3.1.9 suspend the awarding of any degree, qualification and/or other award pending the finalisation of any disciplinary proceeding or the expiry of any suspended penalty, or receipt of payment, or compliance with any disciplinary measure or penalty;
- 1.3.2 The Chairperson may suspend any of the above penalties wholly or in part on condition that the student adheres to or complies with any measure imposed, which is designed to correct behaviour, educate students and/or act as incentive to modify behaviour.
- 1.3.3 If an appeal against a decision of the Disciplinary Committee (Students) is lodged in terms of paragraph 1.5, the Chairperson may, in appropriate circumstances, suspend any disciplinary measure imposed by the Committee pending the result of the appeal.

#### 1.4 Disciplinary Committee (Students)

- 1.4.1 The Disciplinary Committee (Students) consists of one member, namely the Chairperson, provided that an additional member may be co-opted as envisaged in paragraph 1.4.2. The Chairperson shall be appointed from the ranks of the following categories of persons:
- 1.4.1.1 a University staff member (full-time or part-time) with a legal qualification, or
  - 1.4.1.2 an external person with a legal qualification, appointed by the Vice-Chancellor and Principal, to act as the Chairperson of the disciplinary investigation;
- 1.4.2 The Chairperson of the Disciplinary Committee (Students) may, in cases where the subject matter is of a complicated nature and/or requires specific expertise, or where it may otherwise be desirable, co-opt a second member to the Committee for purposes of adjudication upon a specific matter. In such instances the second member of the Committee must be –
- 1.4.2.1 an academic staff member of the University in the case of academic matters; or
  - 1.4.2.2 a staff member of the University, who may be an academic or non-academic staff member, in the case of all other matters; and should any dispute arise as to whether a staff member is an academic or non-academic staff member, the matter shall be decided on by the Chairperson.
- 1.4.3 The staff member referred to in paragraph 1.4.2 shall contribute his or her expertise as is appropriate and be included in all deliberations of the Disciplinary Committee (Students), but shall not have a vote in regard to the finding.
- 1.4.4 The Constitutional Tribunal may appoint a registered student of the University from the ranks of the serving Constitutional Tribunal Judges, as defined in the University of Pretoria Constitution for Student Governance, to act as an observer during the course of any disciplinary proceedings. Such a Constitutional Tribunal Judge must be of good academic standing and be at least at a third-year level of study. The Constitutional Tribunal Judge shall make contributions to the proceedings as are appropriate and be included in all deliberations of the Disciplinary Committee (Students), but shall not have a vote in regard to the finding.
- 1.4.5 If there are no appointed Constitutional Tribunal Judges or no appointed judges are available, any disciplinary proceeding may lawfully continue without representation from the ranks of the judges of the Constitutional Tribunal.
- 1.4.6 Disciplinary proceedings (which shall include the appeal procedure) are of a strictly confidential nature and shall be treated as such by all the parties present or otherwise involved with the relevant proceedings. The aforesaid confidentiality obligation shall extend to any documentation utilised or information disclosed. The University reserves the right to obtain a written undertaking of confidentiality from any relevant party.

#### 1.5 Appeal Procedure

- 1.5.1 A student may appeal against the finding and/or the disciplinary measures imposed by the Disciplinary Committee (Students) in accordance with the following procedure:
- 1.5.1.1 The student may appeal to the Appeals Committee of Senate against the conviction and/or the disciplinary measures imposed by the Disciplinary Committee (Students) by lodging a written Notice of Appeal to the Registrar.
  - 1.5.1.2 The written Notice of Appeal shall be lodged with the Registrar not later than 10 (ten) days after the decision of the Disciplinary Committee (Students) has been communicated to the student. The Notice of Appeal shall be accompanied by an amount not exceeding R2 000 (Two Thousand Rand) or another amount as determined by Council from time to time, which shall serve as part payment for costs related to the appeal: provided that in deserving cases the Registrar may lower the amount payable or waive the payment at his or her discretion.
  - 1.5.1.3 The grounds of appeal must be furnished in detail in the Notice of Appeal and must indicate clearly whether the appeal is lodged against the finding and penalty or only the penalty.
  - 1.5.1.4 On receipt of the Notice of Appeal, a copy thereof shall be submitted to the Chairperson of the Disciplinary Committee (Students), whereupon the Committee shall prepare a response to the grounds of the appeal within a reasonable time and submit it to the Registrar.
  - 1.5.1.5 The Registrar shall then arrange for the appeal to be heard as soon as possible by the Appeals Committee of Senate.
  - 1.5.1.6 The Appeals Committee of Senate may confirm, alter or set aside the finding and shall be entitled to suspend, increase or reduce any penalty and/or disciplinary measure imposed. Should the Appeals Committee of Senate set aside the finding and/or disciplinary measures imposed by the Disciplinary Committee (Students), or reduce the disciplinary measures imposed on the student, the amount paid by the student in accordance with paragraph 1.5.1.2 above shall be refunded.
  - 1.5.1.7 The appeal shall be adjudicated on the basis of the documentation before the Appeals Committee of Senate and no verbal representation on behalf of the student or the University shall be permitted.

#### 1.6 Appeals Committee of Senate

- 1.6.1 The Appeals Committee of Senate consists of:
- 1.6.1.1 the Chairperson of Senate or his or her nominee, who may be a University staff member (full-time or part-time) or a person from outside the University, and who shall act as Chairperson of the Committee; and

  - 1.6.1.3 one other permanent academic staff member from any faculty within the University.
- 1.6.2 With regard to the staff members referred to in paragraphs 1.6.1.2 and 1.6.1.3 above, the proviso is that a staff member, who has served as a member of the Disciplinary Committee (Students) in respect of a certain matter, may not serve as a member of the Appeals Committee of Senate in respect of the same matter.

## 1.6.3 GENERAL

- 1.6.3.1 If a student refuses or fails to attend a disciplinary hearing, the hearing may be continued in his or her absence in a manner which the Disciplinary Committee (Students) deems appropriate, taking into account all the relevant circumstances.
- 1.6.3.2 If the student elects to retain the services of a legal representative, it is the student's responsibility to ensure that such a representative is reasonably available and present at the proceedings. Should the matter be delayed in an unreasonable manner by a legal representative, the Chairperson may in his or her discretion decide to proceed with the matter in the absence of the legal representative.
- 1.6.3.3 If a student's misconduct also constitutes a breach of any professional or ethical code of a profession he or she is preparing to enter, the University shall provide this information to such profession upon request by the relevant professional body. The consent of the relevant student shall be obtained in this regard.
- 1.6.3.4 In the event that a student is found guilty of a transgression of a serious nature which also constitutes a criminal offence, the University is entitled to, and in certain circumstances obliged to, in addition to any internal proceedings instituted, report the matter to the South African Police Service.
- 1.6.3.5 Any reference to the Registrar of the University in this Code shall, unless specifically stipulated otherwise, include his or her delegated representative authorised to act as such with regard to all aspects set out in the Code.
- 1.6.3.6 If the Vice-Chancellor and Principal is of the opinion that the circumstances of a specific case warrant it, he or she may perform some or all of the actions performed by the Registrar in terms of the Disciplinary Code (Students) or, alternatively, he or she may, in accordance with section 68(3) of the Higher Education Act, 101 of 1997, as amended, delegate the authority to perform these functions to another staff member of the University.
- 1.6.3.7 Nothing in this document shall prohibit the Council of the University from promulgating specific disciplinary codes and procedures for regulating conduct in residences or in other units within the University where it is regarded as necessary by the Council. Such disciplinary codes and procedures, where applicable, shall operate in a concurrent manner with the Disciplinary Code (Students), within the specific framework of jurisdiction afforded to it by the Council.

## 2. IMPORTANT PROCEDURES, POLICIES, RULES AND INSTRUCTIONS

### Sexual Harassment and Racial Discrimination

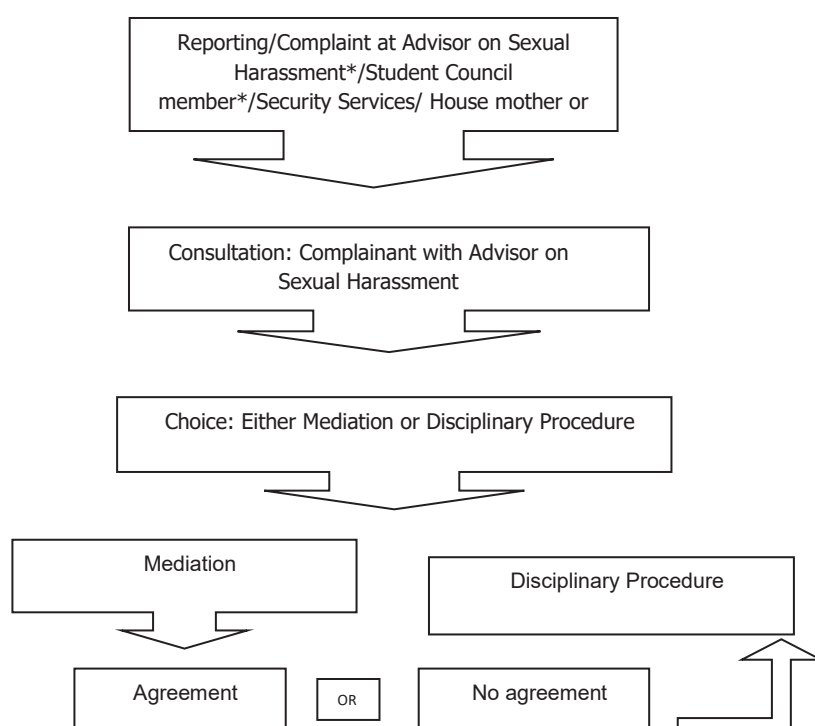

In terms of its Code of conduct on the handling of Sexual harassment and its Anti-discrimination Policy, the University of Pretoria strives towards creating a living and study environment for each of its students that is non-sexist, non-racist and non-discriminatory.

Disciplinary steps can be taken against students who commit acts of sexual harassment and/or unfair discrimination on the basis of race. Upon conviction, such students can be expelled.

Sexual harassment is unwelcome conduct of a sexual nature that violates the rights of a student and constitutes a barrier to equity within the University community, while unfair discrimination on the basis of race impairs a student's right to a non-discriminatory, non-racial study or living environment.

The procedures to be followed by a complainant to report cases of sexual harassment and unfair discrimination on the basis of race are set out in the University's policies and can be illustrated as follows:

### Non-Compliance with Rules and Regulations

1. A student's non-compliance with the rules and regulations of the University may constitute misconduct and will be dealt with in terms of the Disciplinary Code: Students. Whilst a disciplinary investigation against a student is in process a block is activated against the name or record of the student concerned. This block will limit a student's access to his or her academic record and will indicate which division or department should be contacted.
2. A student's non-fulfilment of his or her financial obligations towards University does not constitute misconduct as intended in the disciplinary code and procedures of the University. However, the University reserves the right to:
  - a) levy interest on unpaid amounts at an interest rate equal to that of the prime rate of the University's bankers as of 1 February of the year concerned, and to hold the student responsible for such amounts;
  - b) withhold a student's final marks;
  - c) refuse registration for a following term;
  - d) deny admission to examinations;
  - e) deny admission to lectures/practical sessions;
  - f) deny the student a certificate of conduct;
  - g) withhold a student's academic record;
  - h) withhold a student's degree/diploma certificate;
  - i) deny the student admission to accommodation in a residence;
  - j) deny him/her access to meals in a residence;
  - k) terminate the student's accommodation in a residence;
  - l) have the debt listed with a credit bureau; or
  - m) hand the account over to the University of Pretoria's attorneys or debt collectors in order to collect the outstanding fees, in which case the student will be liable for the costs incurred.

**NOTE:** Non-compliance with a student's financial obligations does not deprive the student of his/her right to the perusal of examination scripts in terms of General Regulation G.14.

### Policies

It is required of each student to acquaint him- or herself thoroughly with the policies and related procedures, regulations, rules and instructions of the University.

### 3. EXAMINATIONS, TESTS AND OTHER ACADEMIC ASSIGNMENTS

Students need to familiarise themselves with the general regulations applicable to examinations and related matters. Students must also take note of the relevant faculty-specific policies on examinations in the respective faculties.

#### Registration for Examinations

At the beginning of the year, a student indicates on his or her registration form in which modules he or she will be writing examinations. If, however, the student later decides not to write an examination in a module(s), he or she must inform the Student Administration of the faculty concerned accordingly.

#### Admission to Examinations

1. A student is admitted to an examination in a module only if he or she has prepared him- or herself satisfactorily through the proper execution of the work, and subject to other faculty stipulations has obtained a semester/year mark of at least 40%, provided that for all first-semester modules at the 100-level a student must obtain a semester mark of at least 30% in order to be admitted to the examination in the module in question.
2. In the calculation of the year mark, performance in tests and the satisfactory execution of assignments (tasks) are taken into consideration.
3. It is therefore essential that a student attends classes regularly, writes all tests and completes all work assignments. A student who, as a result of unforeseen circumstances, is prevented from attending classes, writing tests or completing assignments on time, should contact the lecturer(s) concerned without delay in order to make alternative arrangements. Neglect to do so could result in admission to the examination being denied.
4.
  - 4.1 Tests: In the event of illness, a valid and acceptable medical certificate must be submitted to the Departmental Administration concerned, in addition to arranging with the lecturer(s) concerned.
  - 4.2 Examinations: In the event of illness, a valid and acceptable medical certificate must be submitted to the Student Administration concerned.
5. The names of students who have not been admitted to examinations are announced on ClickUP by the various departments on the last day of lecturing. Students must personally ascertain whether or not they have been admitted to an examination in a particular module.

#### General Instructions

1. No access to the test or examination venue will be allowed without a valid student card. Students are obliged to identify themselves positively by means of a valid student card when writing a test or examination.
2. No person may purport to be a registered student and/or write a test or examination on behalf of another student.
3. No student may enter the test or examination venue later than half an hour after commencement of a test or examination session. No student may leave the test or examination venue earlier than half an hour after commencement of a test or examination session. In the case of computer-based assessment, a student may not enter the venue after the punctual commencement of the test or examination session.
4. Students must obey all the instructions given by an invigilator immediately and strictly.
5. Students may not bring into the test or examination venue or have in their possession any of the following:
  - bags (satchels)
  - handbags
  - pencil cases or bags
  - unauthorised apparatus
  - books and other study material (except as indicated in paragraph 7)
  - any piece of paper, no matter how small
  - notes of any nature whatsoever.

Mere possession of any of the aforementioned, irrespective of whether the student acted intentionally or negligently or innocently, is regarded as a serious transgression of the rules and subsequently as serious academic misconduct. It remains the student's responsibility to verify, prior to the commencement of a test or examination, that none of the aforementioned items are in his or her possession.

6. A student in possession of any electronic means of communication or similar devices, including but not limited to cellular phones or cellular phone watches (smart watches), or any electronic portable devices, including but not limited to laptops, tablets and/or iPads, must ensure that such electronic device is switched off and placed on the floor under his or her chair and out of the student's line of sight. These devices may not be kept on the person of the student and may not be switched on or handled at all by the student during the test or examination session. Cellular phones may not be used as a substitute for calculators.
7. Students are responsible for providing their own writing material (stationery), apparatus and other material in accordance with the requirements and specifications or instructions set by the lecturer concerned (i.e. open book tests or examinations). If a bag is used for these items, the items must be placed in a sealable, transparent plastic bag to be provided at the venue. Mutual exchange of such items will not be allowed.
8. It is important that the surname, full names and signature of the student are provided in the relevant space on the test or examination answer script. If so preferred by the student, this information may be treated as confidential by folding and sealing the top portion of the

examination or test answer script. The covered portion may only be opened by the examiner if the student number is incorrect or illegible. All scripts must be completed in indelible ink. Scripts completed in pencil or erasable ink will not be marked and the writer (student) will not qualify for an additional evaluation opportunity (test/examination).

9. Once the invigilator has announced the commencement of the test or examination, all conversation or any other form of communication between students must cease. During the course of the test or examination, no communication of any nature whatsoever may take place between students.
10. No student may assist or attempt to assist another student, or obtain help, or attempt to obtain help from another student during a test or examination. In the event that the nature of the examination allows for students to engage in discussion with each other, the lecturer must state this explicitly in the instructions and the examination must be conducted in a separate examination venue, where the discussions will not disrupt other students.
11. Students may not act dishonestly in any way whatsoever. Dishonest conduct includes, but is not limited to:
  - dishonesty with regard to any assessment, whether it be a test or an examination, or with regard to the completion and/or submission of any other academic task or assignment;
  - plagiarism (using the work of others as though it is your own without acknowledging the source);
  - the submission of work by a student with a view to assessment when the work in question is that of someone else either in full or in part, or where it is the result of collusion between the student and another person or persons. The exception is group work as determined by the lecturer concerned.
12. Writing on any paper other than that provided for test or examination purposes is strictly prohibited. Students may also not write on the test or examination paper, except in the case of fill-in and multiple-choice question papers.
13. Rough work should be done in the test or examination answer script and then crossed out. No pages may be removed from the test or examination answer script.
14. Smoking is not permitted in the test or examination venue, and students will also not be permitted to leave the venue during the test or examination for this purpose.
15. Only in exceptional circumstances will a student be given permission to leave the test or examination venue temporarily, and then only under the supervision of an invigilator.
16. Students may not take used or unused answer scripts from the test or examination venue.
17. As soon as the invigilator announces during a test or examination that the time has expired, students should stop writing immediately. In the case of computer-based assessment, students are automatically stopped from working on the computer when the login time expires.
18. Students may bring their own watches to the test/examination venue; however, smart watches will not be allowed.

**NOTE:** Students should take note that, if found guilty of academic misconduct or non-compliance with these rules, a student could, among other disciplinary measures, forfeit his or her credits for a module and/or be suspended from the University for a period that could range from one year to permanent suspension. Such a student's record will be blocked for the period of suspension and he or she will not be entitled to a certificate of good conduct from the University during this period. Students should also take note that, if found guilty of academic misconduct, it may negatively influence their admission to other universities and/or registration with professional councils.

#### **Announcement of Results**

- a) Departments may only display results via a computer result list issued by the Head: Student Administration.
- b) Final results can be viewed on the UP Student Portal.
- c) The results of students who have not paid their tuition fees or are in possession of outstanding library material will be withheld unless they qualify for supplementary examinations. The results of the supplementary examinations will also be withheld until the tuition fees are paid and/or outstanding library material is returned.

#### **Re-Marking of Examination Answer Scripts**

- a) A student must submit a written application for the re-marking of an examination answer script to the Faculty Head: Student Administration within 14 calendar days after the commencement of lectures in the ensuing semester.
- b) The mark(s) awarded after re-marking of an examination answer script will be regarded as the final result(s) of the examination even though if it could be lower than the original mark.
- c) The mark(s) awarded after re-marking of a supplementary answer script will be regarded as the final mark even though it could be lower than the original mark. The highest final mark that may be awarded to a student in a supplementary examination is 50%.
- d) Information regarding the fee for re-marking is available from the Student Service Centre (SSC) and the money should be paid at the SSC before the application will be considered.
- e) Should the re-marking result in a pass mark, the student concerned may be refunded the appropriate amount.
- f) Students will not be entitled to an additional supplementary examination by virtue of marks awarded to them as a result of re-marking.
- g) Re-marking results will be made known as soon as possible.

### **Conducting of Examinations and Tests on Saturdays**

Due to its extensive tests and examination programmes, the University is compelled to conduct some tests and examinations on Saturdays. It is therefore not practicable to accede to requests for special tests and examinations that are exclusively intended to substitute programmes scheduled for Saturdays.

### **Examinations on Religious Holidays**

In its calendar, the University accommodates public holidays as proclaimed by Government. Only religious holidays that correspond to any of these public holidays are accommodated in the calendar. However, the University operates as a secular institution and no one religion or belief system is favoured above the other. When students request to be absent from any examination, test, class, practical module or other academic commitment due to a religious objection, they should approach their faculty's student administration at least 2 weeks prior to the relevant date with a written request to be excused from such academic obligations. This request should be supported by a letter from the relevant church, congregation or religious leader that confirms that the student is an active member of that church, congregation or religious group and that the particular date needs to be sanctified based on the tenets of that religion.

The Dean (or delegated representative) will consider the possibility of allowing the student(s) to sit for an alternative examination, test, class, practical module. This alternative examination will therefore be the only opportunity for the student to write in accordance with the conditions as provided in the relevant Yearbook.

### **Cancellation of Lectures and Tests**

The attention of lecturers is drawn to the fact that lectures may not be cancelled with a view to preparations for Rag or any other activity.

## **4. GENERAL REQUIREMENTS**

**NOTE:** It is the responsibility of all students to familiarise themselves with the General Regulations of the University, as well as faculty-specific regulations, and the procedures, rules and instructions pertaining to study in any Faculty. Ignorance of the applicable regulations, rules and instructions, or the wrong interpretation thereof will not be accepted as an excuse for not complying with the stipulations of such rules, regulations and instructions.

### **Language of tuition**

From 1 January 2019, English will be the language of teaching and learning for all first-year programmes. The only exception is where students are studying other languages and in programmes with profession-specific language outcomes, subject to approval by Senate. English will also be the language of official communication and administration on all campuses and in residences. Where requested and feasible, administrative services may be provided in other South African languages.

Students who registered prior to 2019, including those who registered in 2018 for the first time, will continue to receive lectures, tutorials, study guides and assessment material (question papers, assignments and the like) in Afrikaans for those programmes which were offered in Afrikaans at the time of enrolment, provided that the class size remains practically feasible and it is academically justifiable.

Where assessment and question papers are set in Afrikaans, currently enrolled students will also be allowed to answer in Afrikaans.

### **Application**

Any person who wishes to register at the University for the first time, or after an interruption of studies, should apply or reapply for admission. Prospective students must submit their applications before the closing date specified for that programme. The closing date is an administrative admission guideline for non-selection programmes. Once a non-selection programme meets capacity and the institutional targets, such a programme will be closed for further admissions, irrespective of the closing date. However, if institutional targets have not been met by the closing date, such programme will remain open for admissions until institutional targets are met. For selection programmes the closing date indicates the closure of the application process.

Students for distance education may apply for admission at any time during the year. However, they must apply before 1 September to write examination in April of the following year, or before 1 March to write examination in October of the same year. No late registrations will be accepted.

Due to constraints on the University's facilities, there is a limit to student enrolments in all programmes. Meeting the minimum requirements of a programme, specified in the brochure, may therefore not be sufficient to ensure admission. Prospective students are therefore encouraged to apply in good time.

### **Number restrictions**

If limited human resources and/or facilities are available, number restrictions will be applied. Senate may also limit the number of students allowed to be admitted to a programme, in which case the Dean concerned may, according to the Senate approved Admissions Regulations, select from the students who qualify for admission, those who may be admitted.

### Academic information management

The University of Pretoria requires all undergraduate first-year students to complete the AIM module/s, Academic information management, unless other regulations apply to a specific programme. See the applicable degree programme for more information. Details regarding the module/s can be found in the list of modules.

### Application of old and new regulations

(Also consult General Regulation G.5)

Students must complete their degree in accordance with the regulations which were applicable when they first registered for a specific field of study or specialisation. If students interrupt their studies or change to another field of study or specialisation, the regulations of the year in which studies are resumed, or in which the new field of study or specialisation is taken, apply.

### Registration for a particular year of study

(Also consult General Regulation G.2)

At the beginning of an academic year, a student registers for all the modules he or she intends taking in that particular year (whether these are first-semester, second-semester or year modules) in accordance with the rules governing the programme the students wish to register for. Changes to the selection of modules may be made at the beginning of the second semester with the Dean's approval. A student may only register for modules that will fit in on the lecture, test and examination timetables.

Application for reregistration can be refused on the grounds of poor academic performance in the previous year.

If a module or programme does not attract enough registrations in order to be presented economically, the Dean may decide to withdraw it. The affected students will be informed in time to enable them to register for an alternative module or programme.

### NOTE:

Should a student in the **Faculty of Theology and Religion** interrupt his/her registration for the undergraduate programme and it is not renewed within four years of the first registration, the credits obtained will no longer be valid. The student should repeat the modules already passed.

On successful application for a **distance education** programme a student will be registered for the complete programme.

Should a student in the **Faculty of Natural and Agricultural Sciences** be prepared to attend one module after hours to avoid clashes on the timetables, the approval of the Dean is not required. (This will only be possible if the module in question is offered full-time and extramurally). A student is allowed to register for the next year of study only if at least the equivalent of 100 credits from core modules have been passed in a particular year of study. Students who wish to select modules to the value of more than 90 credits per semester must obtain special permission from the Dean.

Students in the **Faculty of Humanities** who register late must peruse the general regulations that govern late registration in the Faculty. A student who wishes to select modules to the value of more than 180 credits per year, needs to obtain special permission from the programme manager/coordinator.

A student in the **Faculty of Economic and Management Sciences** who fails to renew their registration for a degree or a module within five years of first registration for the degree will need to apply for re-registration as outlined in General Regulation G3.2. Written permission from all heads of department confirming acceptance of validity of previously passed modules must be obtained.

### Registration for and cancellation of modules

Final cut-off dates are set for the change of modules (removing or adding) for each academic year. The cut-off date for cancellation of modules in the first and second semesters will be communicated to students by means of notices on the notice boards and announcements in the classes as well as in the calendar of the University and the timetable book. Students will not be allowed to cancel any module at a later date and lecturers/administrative staff will not supply any letters in this regard after the deadline.

A student may not register for a module of a subsequent year if a timetable clash occurs with a module of a previous year which has not yet been passed and which is prescribed for his or her field of study, unless exemption is obtained from class attendance in the latter module.

Should a student register for second semester modules at the beginning of a year of study, and it becomes evident at the end of the first semester, that he or she does not comply with the prerequisites of the second-semester modules, the registration of such modules will be cancelled. It is also the student's responsibility to ensure at the beginning of the second semester that the cancellation has been done.

### NOTE

In the **Faculty of Natural and Veterinary Science**, faculty-specific programme rules regarding registration and cancellation of modules apply.

### Concurrent registration for two fields of study

With the permission of the dean/deans concerned, a student may register for a degree, diploma or certificate and another degree, diploma or certificate, whether undergraduate or postgraduate, simultaneously, subject to the regulations applicable to the fields of study in question and to any other stipulations the dean/deans may prescribe on the condition that there shall be no overlap in the course content of the first degree, diploma or certificate and the second degree, diploma or certificate. Such a concession may be withdrawn by the dean/deans concerned if the student does not perform satisfactorily.

### **Termination of studies**

A student who decides to terminate his or her studies during the course of the academic year, must notify the University **in writing** and the notification (on the official form) of the termination of studies must be submitted to the accounts consultants at the Student Service Centre. All changes of modules must be done in writing at the relevant student administration.

The date on which the University receives the notification from the student will be considered to be the date on which studies are terminated. The burden of proof for the termination of studies or modules rests with the student.

If a student terminates his or her studies after the first Tuesday in June, or notice to this effect is received by the University after this date, the student shall be considered to have registered for the full academic year and to have failed. It is therefore in the interest of the student to notify the University without delay that he or she is terminating their studies.

### **Modules from other faculties**

A student who wants to register for a module presented in another faculty, must acquaint him/herself and comply with the admission requirements of the module in question, sub minima requirements for tests/examinations, supplementary examination periods, etc.

### **Credits for modules passed by unregistered students**

There are students who attend lectures, write tests and examinations and in this manner earn "marks", but have either not registered for modules/or even as students at all. These marks will not be communicated to any student before he/she has provided proof of registration. A student cannot obtain any credits in a specific academic year for a module "passed" in this manner during a previous academic year and for which he/she was not registered. This arrangement applies even where the student is prepared to pay the tuition fees.

### **Degree with distinction**

Weighted averages (GPA), together with other faculty-specific criteria if applicable, are used at UP to calculate averages for the determination of distinctions.

### **Plagiarism**

Plagiarism is when you present someone else's ideas – published or unpublished – as if they were your own. Other people's ideas may be contained in written text (journal articles, textbooks, etc.), visual text (graphics, photographs, etc.), multimedia products (web sites, media productions, etc.), music (compositions, lyrics, etc.), and spoken text (speeches, lectures, etc.). Plagiarism is a serious offence and a student could be charged with misconduct which could lead to suspension from the University. For further information on plagiarism visit the following web site: [www.ais.up.ac.za/plagiarism/index.htm](http://www.ais.up.ac.za/plagiarism/index.htm)

### **Agreement for postgraduate study**

An agreement between the student and the supervisor should be signed at the commencement of postgraduate study. The document serves as the basis for the interaction between the student and the supervisor. It indicates their individual roles, responsibilities and expectations and makes it clear that they are entering into a binding undertaking with each other.

### **Leave of absence**

If it is impossible for a registered student at the University of Pretoria to continue with his/her studies/research in a specific year, but he/she intends to continue in the subsequent year, the student must apply in writing to the dean of the relevant faculty for **leave of absence**. The application must include: full names, student number, address, reasons and period for leave of absence, for example the whole year, first semester (January to June) or second semester (July to December), name of supervisor (where applicable), and the student's intentions for the period after his/her leave of absence. However, in accordance with the policy of the University of Pretoria, leave of absence is not granted for more than two years. Any outstanding fees should be paid in full upon the student's return from his/her leave of absence.

Students who are granted leave of absence do not have access to classes, the library or any other UP facility for the duration of the leave of absence. Where leave of absence has been granted, all courses for the period for which results have not been entered, will be withdrawn from the student's record. For postgraduate theses and dissertations, students are liable for re-registration fees for the year for which leave of absence was granted.

## 5. GENERAL INFORMATION

### Residence accommodation

The same online application form that is used to apply for a programme, is also used as an application for residence accommodation. If you did not apply together with your study application, you may still apply on the UP Student Portal. Renewal of residence accommodation for subsequent study years is based on academic merit. You will be required to reapply for a space in the residence annually. Unfortunately, residence placement cannot be guaranteed as the demand far exceeds the places available. Admission to a programme does not also automatically ensure residence accommodation.

Students registered for Distance Education programmes are responsible for arranging their own transport, accommodation and food during contact sessions and examinations.

Placement queries may be directed to [tuksres.placement@up.ac.za](mailto:tuksres.placement@up.ac.za)

### Residences – Rules

Matters concerning University-controlled residences are described fully in the TuksRes Rules and Regulations, which is available on the University website, as well as the Department of Residence Affairs and Accommodation (90 Duxbury road). These rules, regulations and procedures provide a framework for the management of all UP residences, undergraduate as well as postgraduate, and for maintaining discipline and order and providing a supportive, enabling and safe study and living environment. As such, they constitute the official policy of the University of Pretoria. The rules and regulations are subject to the Statute of the University of Pretoria and supersede all internal house rules that may be introduced in any individual residence. Residence students are subject to the applicable rules and regulations pertaining to residences. Ignorance of the rules will not be excusable. It is advised that students familiarise themselves with the content of the TuksRes Rules and Regulations.

Any queries in this regard may be forwarded to [tuksres@up.ac.za](mailto:tuksres@up.ac.za).

### Changes to regulations and fees

The University reserves the right to amend regulations and syllabi where necessary and to change module fees without prior notice.

**NOTE:** The fees advertised and thus levied in respect of a module or programme presentation represents a combination of the costs associated with the formal services rendered (for example lecturers, practicals, access to laboratories, consumables used in laboratories, etc.) as well as associated indirect overheads such as the provision of library and recreation facilities, security and cleaning services, electricity and water supply, etc. Therefore, the fees in respect of a module or programme presentation cannot simply be reconciled with the visible services that are rendered in respect of such a module or programme.

### Prescribed books

Lists of prescribed books will be made available in certain faculties. The appropriate lecturers will supply information regarding prescribed books to students at the commencement of lectures.

The complete content of each Distance Education programme is contained in the learning materials that students receive. It is not necessary to buy any additional textbooks. Extracts from referenced textbooks are provided with the learning materials. Students also receive envelopes, assignment covers and writing pads to submit their assignments.

### The use of UP computer facilities

The University's computer facilities are used subject to the Code of Conduct for Users of the Student Computing Environment. Conduct in contravention with the code, will be dealt with in accordance with the provisions thereof.

The code can be viewed at <https://www1.up.ac.za/cs/groups/staff/@public/documents/document/mdaw/mda0/~edisp/004227.pdf>.

All users of the Student Computing Labs must read and agree to the Code of Conduct prior to the use of the computer facilities. A hard copy of the Code can be obtained on request at any of the computer laboratories.

### Orientation

In terms of the policy determined by the University Council, no form of initiation of first-year students or any other students is permitted. A welcoming programme will be presented.

### Distribution of publications

Internal publications: Use of the corporate identity on all University of Pretoria publications aimed at internal and external audience should be signed off by the Director: University Relations and the Brand and Advertising Specialist.

External publications: With the exception of publications that have been officially approved, no publications, e.g. external newspapers, pamphlets or flyers may be distributed on the campuses without the prior approval of the Director: University Relations.

**Dress**

It is expected of students of the University of Pretoria to be dressed neatly and appropriately on the campuses at all times. Deans may prescribe the appropriate dress for students in their faculties.

Conditions regarding the use of the University Coat of Arms/logo and the wearing of University colours are contained in the Corporate Identity Manual of the University and relevant regulations that the Student Representative Council may lay down in this regard. Enquiries should be directed to the Department of University Relations.

**Use of cellular phones and other recording devices during lectures and practicals**

The attention of students is drawn to the fact that cellular phones may not be used at all during lectures and practical sessions and must be switched off. Furthermore, students are prohibited from recording lectures without the permission of the lecturer concerned. However, in the case of students with special needs, prior arrangements should be made to obtain the necessary approval.

2. Admission to the premises of the University is under all circumstances subject to the Control of Access to Public Premises and Vehicles Act, Act 53 of 1985.
3. Persons who enter and park on the premises of the University do so at their own risk. Therefore, the University does not accept liability for any accident or damage suffered by a person as a result of the use of the grounds or buildings of the University.
4. The use of the grounds and buildings of the University is subject to the policy and procedural provisions determined by the University Council.
5. Climbing University buildings, accessing roofs of these buildings without permission or any other related unauthorised act is prohibited.
6. Unless the Traffic Regulations expressly determine otherwise, the traffic rules applicable to public roads contained in the Road Traffic Act, Act 29 of 1989, as amended, also apply to the premises of the University.

### The use of student cards

Each student is responsible for the safekeeping of his/her student card. A student card may only be used by the registered student to whom the card was issued. A student card may not be abused and care should be taken by the card holder that the card is not used in such a way that it may pose a security risk to the University, i.e. by lending, sharing or giving it to someone else. Should a student no longer be a registered student at the University of Pretoria, the student card issued to that particular student may no longer be used for any purpose whatsoever.

### Occupational health and safety

All staff members and students of the University must at all times comply with the provisions regarding occupational health and safety as set out in the Occupational Health and Safety Act, Act 85 of 1993, including all rules and work proceedings as set out by the University in the interest of health and safety.

### Sports meetings – Code of Conduct

#### 1. General premise

The general premise is that the behaviour of the students of the University of Pretoria shall at all times, i.e. also at any sports meeting – **including Intervarsity** – be such that the image and good name of the University is not prejudiced. In this regard, an intervarsity is not considered to be an extension of Rag, but an event in its own right with a long and proud tradition.

#### 2. All sports meetings

- a) A student's behaviour shall not be of such a nature that it disrupts or in any way detrimentally affects the normal course of the sports activity in question.
- b) No spectators shall without authorisation set foot on the playing field regardless of whether the particular sports activity is in progress.
- c) Alcohol abuse is strictly prohibited. No glass bottles and/or cans are allowed in the stadiums.
- d) No dangerous objects or weapons as stated in paragraph 2.12 below are allowed into the stadiums.
- e) A spectator shall subject him- or herself to the authority of the person appointed by the University or TuksSport to maintain order and shall abide by any reasonable arrangement made by such a person with a view to the discipline of the spectators.
- f) Indecent behaviour and foul language are forbidden.

### Official tours

- a) The rules regarding official tours undertaken by students of the University of Pretoria regulate the organisation, approval and effective control of official tours, excursions or trips beyond the borders of Pretoria that are organised by the students themselves, employees of the University of Pretoria or a University organisation, and to which the name of the University of Pretoria is linked.
- b) Official tours can be divided into three categories, namely academic tours, student tours and sports tours.
- c) The University authorities reserve the right to take disciplinary action in terms of the rules and regulations of the University against tour chaperons and/or tour managements and/or tour members during or after a tour. (These regulations are available on request at the offices of the SRC).

### Firing of rockets and explosives

The use and/or firing of any fireworks, rockets or explosives, of whatever nature, is not only a contravention of the rules of the University, but can also constitute a criminal offence. Contraventions of this nature normally lead to the suspension of the student concerned.

### Carrying and storage of firearms

While the University acknowledges the right of individuals to possess weapons for the purpose of self-defence, weapon sport or official duties (SAPS and armed private security companies), campuses were declared firearm-free zones by the Minister of Safety and Security.

No person will be allowed to bring onto campus or the premises of the University, a firearm, ammunition, explosives, explosive devices or any other dangerous or potentially dangerous weapon or object ("weapon") or be in possession or control of such a weapon or to store it on the University's premises.

Weapons will include all firearms as defined in the Firearms Control Act 60 of 2000. Dangerous weapons are defined in the Dangerous Weapons Act 71 Of 1968, as any object other than a firearm, capable of causing death or of inflicting serious bodily harm, if it were used for an unlawful purpose, as well as without limitation, explosive devices and objects such as potato guns and/or paintball guns, spears, swords, knives or any object that can be utilised with the express object of threatening or hurting another person.

### Evacuation of lecture halls/laboratories

During the evacuation of a lecture hall/laboratory, whether during drills or in the case of real emergencies, the students in the hall/ laboratory shall be under the direct control of the lecturer concerned who shall be responsible for the orderly evacuation of the premises. The successful execution of an evacuation is dependent upon the full co-operation of everyone involved. The following suggestions are of particular importance:

Remain calm and do not panic.

Move quickly but do not run.

Do not use the lifts.

Use the main stairs or the fire-escape to get out of the building.

If the escape route is already filled with smoke, crouch as low as possible since there is more fresh air closer to the floor.

Avoid touching electrical equipment, switches and exposed wires.

1. In order to register for a first bachelor's degree at the University, a candidate should:
  - a) have completed the National Senior Certificate and have met the minimum requirements for admission to bachelor's degree study as gazetted for admission to higher education, whilst students who have written the Cambridge International Examinations or any other recognised international Grade 12 examination as recognised by Universities South Africa (USAf) should be in possession of and submit proof of their final results. The University however, reserves the right to request the submission of the original NSC or similar certificate if required;

  - a) The minimum statutory requirement to obtain university entrance is a National Senior Certificate (NSC) certified by Umalusi with an achievement rating of **4** (50-59%) in **four** recognised 20-credit subjects from the designated subject list. Note that Life Orientation is a 10-credit subject.
  - b) **To be able to gain access to a Faculty and specific programmes prospective students require the appropriate combinations of recognised NSC subjects as well as certain levels of achievement in the said subjects.**  
In this regard the determination of an admission point score (APS) is explained and a summary of the faculty specific requirements, i.e. the admission point score (APS) per programme and the specific subjects required per programme and their required level of achievement are provided. Take note that there may be additional subject requirements under "Regulations" in the Regulations publication of each Faculty.
  - c) **Determination of an Admission Point Score (APS, old M-Score)**  
The calculation is based on a candidate's achievement in six 20-credit recognised subjects, by using the NSC ratings that is the "1 to 7 scale of achievement". Thus, the highest APS that can be achieved is 42. **Life Orientation** is excluded from the calculation determining the APS required for admission per faculty.  
  
Preliminary admission is based on the results obtained in the final Grade 11 examination.  
  
**NOTE:** The final Grade 12 results will be the determining factor with regard to admission.  
  
Alternative admission channels: Candidates with an APS lower than required, or without a required subject such as Mathematics, could be considered for admission to a faculty if they meet the additional assessment criteria specified by the University from time to time. Preference will, however, be given to students who comply with the regular admission requirements of the University.
3. A candidate, who does not comply with the requirements in G.1.1(a) above, may also be considered for admission, provided that the candidate:
  - a) is in possession of a certificate deemed by the University to be equivalent to any of the certificates mentioned in G.1.1(a); or

5. Subject to other faculty regulations and the stipulations of G.1.3 and G.54, a candidate is admitted to a postgraduate bachelor's degree only if he or she is already in possession of a recognised bachelor's degree.

6. A candidate, who, at the time of application, is a registered student at another institution for an undergraduate programme, or was registered at another institution in previous years and did not complete the undergraduate programme he or she was enrolled for, applies as a transferring student. Any transferring student must, apart from complying with the general admission regulations of the University, comply with all the Faculty rules pertaining to:
  - a) Admission as a first-year student for the particular academic programme he or she is applying for, and will further be considered for admission based on

Each head of department announces the year or semester marks to the students in his or her department at the latest at the official conclusion of lectures.

## 2. Repetition of modules

- a) A student who fails a particular examination, is obliged to attend the module(s) concluded by that examination again, unless the dean, on the recommendation of the head of the department concerned, grants exemption from class attendance, in which case the year or semester mark of the student has to be taken into consideration; and exemption in a specific module will be allowed only once.
- b) Application for exemption from class attendance must be submitted within 14 days after the commencement of lectures – provided that deans may consider justifiably late applications.
- c) A student who has failed a module, may be exempted by the dean, in consultation with the head of the department, from the examination in such a module and receive credit for it by virtue of the achievement in a subsequent semester in the module concerned.

## G.12 Assessments (Examinations, tests and essays)

### 1. Examinations and essays

An examination in a module may be oral and/or written. Essays are prepared and examined as stipulated in faculty regulations.

### 2. Pass requirements

2.1 In order to pass a module, a student must:

- 2.1.1 obtain the minimum examination mark prescribed for that module;
- 2.1.2 obtain a final mark of at least 50%;
- 2.1.3 comply with the subminimum in subdivisions of modules, as stipulated in the regulations of the particular faculties.

2.2 Each faculty should, by way of faculty regulations, determine the weight that is allocated to the year or semester mark and the examination mark in the calculation of the final mark of the student: Provided that all year modules and semester modules in a faculty need not be dealt with in the same way, although a large degree of uniformity is desirable.

2.3 Subject to other faculty regulations, a student passes a module with distinction if he or she obtains a final mark of at least 75%.

### 3. Ancillary examinations

After writing an examination, the examiners may summon a student for an ancillary examination on particular aspects of the work in a module, with a view to awarding a final examination mark.

### 4. Supplementary examinations

4.1 Subject to other faculty regulations, a student may be admitted to a supplementary examination in a module, in cases where:

- a) a final mark of between 40% and 49% has been obtained; or
- b) a pass mark has been obtained, but the required subminimum in the examination section of the module or divisions thereof has not been obtained.

4.2 If the module, in which a final mark of between 40% and 49% has been obtained, is a first-semester module at 100 level, a supplementary examination must be granted.

4.3 Subject to other faculty regulations, a student must obtain a final mark of at least 50% in order to pass a supplementary examination. The semester or year mark is not taken into account and the supplementary mark is the final mark.

4.4 The highest final mark that may be awarded to a student in a supplementary examination is 50%.

4.5 Special supplementary examinations are not arranged for students who are unable to write the examination at the times scheduled for supplementary examinations.

4.6 Supplementary examinations cover the same subject matter as was the case for the examinations.

### 5. Extraordinary examinations (including the aegrotat)

5.1 A student who is prevented from preparing for an examination, or from sitting for it, owing to unforeseen circumstances or illness, may be granted permission by the dean to write an extraordinary examination in the particular module(s).

5.2 An application to sit for an extraordinary examination, supported by applicable corroborative proof, should be submitted to the dean in the prescribed manner, within three days of the date of the particular examination that was not written due to unforeseen circumstances – provided that an application that could not be submitted in time, may also be submitted for consideration, provided that there is a valid reason.

5.3 The period to sit for an extraordinary examination is determined by the lecturer, in consultation with the head of the department concerned – on condition that the examination is conducted as soon as possible after the unforeseen circumstances or illness have/has ceased to exist; and on the further condition that such an examination in a module may not be sat for in more than one examination period.

5.4 Should an extraordinary examination be granted, the prescribed fees must be paid by the student; and in cases where the cost of conducting the examination exceeds the prescribed fees, such additional costs may be recovered from the student.

## 6. Special examinations

- 6.1 A student requiring a limited number of modules to complete his or her degree, may, in terms of faculty regulations, be admitted to a special examination.
- 6.2 If there is an indication at the end of an academic year that a student qualifies for a special examination in no more than two modules and that such student can complete his or her study programme if he or she is successful, the faculty may require such student to sit for a special examination or examinations. If the student declines the offer, this may be taken into consideration with regard to further residence accommodation and financial support by the University.
- 6.3 If the special examination is conducted before 31 January, such a student must not register again for the module/s in question and the examination is treated as a supplementary examination.
- 6.4 If the special examination is conducted after 31 January, the student must register again for the module/s in question and a semester mark, examination mark and final mark must be obtained in an appropriate manner.
- 6.5 In cases where a special examination is conducted after 31 January, the result of the examination will not be taken into consideration with a view to the graduation ceremonies in March/April, and in cases where a special examination is conducted after 30 June, the result of the examination will not be taken into consideration with a view to the graduation ceremonies in September. Results of special examinations must be submitted to the Head: Student Administration before 15 February and 15 July respectively.
- 6.6 All the rules applicable to a supplementary examination also apply to a special examination (See G.12.4).
- 6.7 A student only qualifies for a special examination if he or she sat for the prescribed examination in the final (preceding) year of study.

## 7. General

If a student has sat for an examination, he or she is not entitled to apply for an extraordinary examination (including an aegrotat) on the basis of the following:

- a) undisclosed illness at the time of the examination;
- b) that the candidate was underprepared due to illness; or
- c) the presence of undisclosed special circumstances at the time of the examination.

### G.13 Examiners

An examination in a module must be conducted by one or more examiner/s who is/are not involved with the instruction of that division of the module that is examined, together with one or more of the lecturers of such a module. Should this be impracticable as a result of the death, resignation, absence, illness or any other inability of the lecturer concerned, the dean of the faculty in question, in consultation with the head of the department concerned, may make the necessary arrangements.

### G.14 Perusal and re-marking of examination scripts

After conclusion of the examinations, departments provide feedback to students concerning the framework used by examiners during examinations, provided that in the case of distance education the dean may make other arrangements to provide feedback to students. The head of the department concerned determines the manner in which feedback is provided. Students may apply for the re-marking of examination scripts after perusal of such scripts and within 14 days after the commencement of the lectures of the ensuing semester, and after payment of the prescribed fee. The examiner will be appointed by the head of the department concerned.

### G.15 Compliance with degree requirements and degree privileges

With the exception of an honorary degree, a degree will be conferred on a student only if the student has complied with all the requirements for the particular degree and has reached the level of competence prescribed for each module that is required for the degree, and on condition that no one is entitled to any privileges pertaining to a degree before the degree has been conferred on him or her at a graduation ceremony.

**Master's degrees (G.30–G.41)****III Master's degrees****G.30 Types of master's degree**

1. There are three types of master's degree (NQF exit level 9, 180 credits) in terms of the Higher Education Qualifications Sub- Framework (HEQSF), namely:
  - a) Master's degree by dissertation: a single advanced research project, culminating in the production and acceptance of a dissertation or other forms of research such as a technical report, one or more creative performances or works, or a series of peer-reviewed articles or other research-equivalent outputs,
  - b) Master's degree by coursework and mini-dissertation: a coursework programme requiring a high level of theoretical engagement and intellectual independence, and in some cases demonstration of the ability to relate knowledge to a range of contexts for professional practice. It must contain a research project comprising a minimum of 60 credits at NQF level 9, culminating in the acceptance of a mini-dissertation or other forms of research such as technical reports, creative performances or works, or series of peer-reviewed articles or other research-equivalent outputs, and
  - c) Professional master's degree: the successful completion of a coursework programme requiring a high level of theoretical engagement and intellectual independence as well as demonstration of the ability to relate knowledge to the resolution of complex problems in appropriate areas of professional practice. In addition, a professional master's degree must include an independent research component that comprises at least a quarter of the credits at NQF level 9, consisting of either a single research or technical project or a series of smaller projects demonstrating innovation or professional expertise.

**G.31 Admission**

1. As required by the regulations of the faculty in question and subject to the stipulations of G.1.3 and G.54, the minimum admission requirement is a relevant bachelor honours degree or a relevant postgraduate diploma. A relevant bachelor's degree at NQF level 8 may also be recognised as meeting the minimum entry requirement to a cognate master's degree.
2. A candidate may be refused admission to a master's degree by the head of department if he or she does not comply with the standard of competence in the discipline as determined by the department – provided that a candidate who does not comply with the required level of competence, may be admitted, provided that he or she completes additional study assignments and/or examinations as required by his or her supervisor.
3. A candidate, who is refused admission to a master's degree, may request that the dean reconsider his or her application for admission in terms of the prescribed procedure.

**G.32 (a) Registration**

1. (S.58) – A student registers at the University at a time and in a manner determined by Council from time to time. By virtue of such registration, the student subjects himself or herself to the rules of the University.
2. Registration takes place in accordance with the regulations applicable to the particular degree for which the student registers, and on condition that compliance with the requirements of that degree is the student's responsibility.
3. After registration, a student is obliged to pay the fees due on or before the date stipulated by Council and a student who cancels his or her registration is not entitled to any refund and remains liable for the full amount.

**G.32 (b) Renewal of registration**

1. Students of the University are registered for one year of study. After a year has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are pre- scribed by Council from time to time.
2. Subject to exceptions approved by the dean, on the recommendation of the head of department, as set out in paragraph 3 below, a student may not enrol for the same subject for a master's degree more than once. This applies to both modules and the dissertation.
3. Students who are given permission by the dean, on the recommendation of the head of department, to present them- selves more than once for an examination in the same department, must pay the full fees for this examination.
4. Students enrolled for a master's degree must complete their studies within two years after first registering for the degree, except for programmes which require a longer period and are specified in faculty regulations.
5. Renewal of registration after the two-year period is permitted only under special circumstances in which case the head of department may approve a limited fixed extension of this period in terms of the set procedures.

### **G.33 Concurrent registration for two fields of study and duplication of master's degrees**

The purpose of this provision is to avoid the awarding of multiple degrees for the same work undertaken and to ensure that degrees with different purposes are not embedded within each other.

1. With the permission of the dean(s) concerned, a student may register simultaneously for a degree, diploma or certificate and another degree, diploma or certificate, whether undergraduate or postgraduate, subject to the regulations applicable to the fields of study in question and to any other stipulations the dean(s) may prescribe on condition that there shall be no overlap in the course content of the first degree, diploma or certificate and the second degree, diploma or certificate. Such a concession may be withdrawn by the dean(s) concerned if the student does not perform satisfactorily.
2. A duplicate master's degree is one at the same level and in the same field as a degree already awarded. Applicants are allowed to enrol for a second degree at master's level only if the second degree is in an unrelated field. A coursework degree at master's level is not regarded as a duplicate of a research master's degree, and therefore applicants who hold a coursework master's degree may be admitted to a research master's degree and vice versa if there is no duplication in the subject matter involved.

### **G.34 Minimum study periods and requirements for master's degrees**

1. A master's degree is conferred on a student only if at least one year has expired after obtaining the qualifications required for master's study – provided that the student is registered for at least 12 months for a master's degree at this University, although the dean may approve a shorter period.
2. A master's degree is conferred on a student only if he or she complies with all the requirements laid down in faculty regulations.

### **G.35 Acknowledgement of modules**

1. For a master's study, a dean may acknowledge examinations passed at other universities or at this University in a department other than that in which the master's study is undertaken – on condition that the mini-dissertation is prepared and examined in terms of these regulations and is completed under the guidance of a supervisor at this University and, on the further condition that at least half of the required modules for that degree are attended and passed at this University.
2. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the dean may not acknowledge any examinations and modules that form part of the degree already conferred.

### **G.36 Requirements for admission to examinations**

1. A student is permitted to enter an examination in a module only if the lecturer of that module, in consultation with the head of department, certifies that the student has prepared himself or herself satisfactorily by due performance in his or her work and has fulfilled the attendance requirements.
2. A student may be refused admission to the examination if the prescribed tuition fees have not been paid. A student's final marks may also be withheld should his or her tuition fees be outstanding.
3. A student may be refused admission to the examination if he or she has failed to fulfil the attendance requirements.
4. Subject to exceptions approved by the dean, on the recommendation of the head of department, a student may not enter for any master's examination more than twice.

### **G.37 Examinations**

1. General

A master's degree is conferred on a student by virtue of a dissertation, or an examination and a dissertation or another relevant form of research, or examinations and a mini-dissertation or another relevant form of research (see G.30). Examinations may be written in and/or oral form.

2. Oral and written examinations
  - a) The nature and extent of examinations are determined by the dean of the faculty in question, on the recommendation of the head of department.
  - b) Written master's examinations take place as announced annually per department.
  - c) Oral master's examinations may be conducted at times other than those approved for written examinations, provided that these are arranged by the head of department, in consultation with the dean.

### **G.38 Master's degree by coursework and a mini-dissertation**

1. A coursework master's degree is conferred on a student by virtue of examinations (per module) and a mini-dissertation or other research-relevant output.
2. Decisions on the size (number of credits) of the research component of a master's degree by coursework should be made keeping in mind that the University is an internationally recognised South African research-intensive institution of higher learning.
3. Mini-dissertations or other relevant forms of research are prepared and examined according to the instructions that are laid down in the faculty regulations.

### G.39 Master's degree by dissertation

#### 1. General

All approvals relating to the preparation and submission of dissertations are given by the dean on the recommendation of the head of department. However, the dean may, at his or her own discretion, delegate such approvals to the head of department or to the Chairperson of the Postgraduate Committee of the faculty.

#### 2. Designation of supervisors

- a) The head of department concerned should designate a supervisor from within the faculty for a particular master's study candidate, within one month after the candidate has been registered. The designation by the head of department should be confirmed by the dean.
- b) A person designated as supervisor, should hold a qualification equivalent to or higher than the qualification of the postgraduate concerned and have the appropriate stature and experience to supervise postgraduate candidates.
- c) A person designated as the supervisor should be appointed to an academic position in the University.
- d) On the retirement or resignation of a supervisor from the University's service, he or she may, with approval of the head of department concerned, still act as supervisor for the student for whom he or she was appointed as supervisor, in order to enable such a student to complete his or her dissertation. For this purpose and for this period such a supervisor will be deemed to be an accredited lecturer of the University. This arrangement is allowed to continue until such time as the head of department deems it to be no longer appropriate or necessary. If on the retirement or resignation of a supervisor from the University's service, he or she is no longer prepared to act as supervisor for the student for which he or she was appointed as supervisor, a new supervisor is appointed.
- e) The designation of supervisors is submitted to the faculty board for notification.

#### 3. An agreement between the student and the supervisor

- a) An agreement between the student and the supervisor should be signed. The document serves as the basis for the interaction between the student and the supervisor. It indicates their individual roles, responsibilities and expectations and makes it clear that they are entering into a binding undertaking with each other.
- b) It is the responsibility of the head of department concerned to monitor the progress of a candidate in regard to his or her signed agreement.

#### 4. Approval of topic and title

- a) Applications for approval of a topic and title of a dissertation, as well as changes to titles, are submitted to the head of department, for approval by the dean (who may delegate this approval, (see G.39.1 (a))).
- b) The dean or delegate approves the application or refers it back to the head of department for amendment by the student.
- c) Approved titles of dissertations are submitted to the faculty board for notification.

#### 5. Non-disclosure of the contents of a study

- a) Where part or all of the contents of the master's study must remain confidential, the supervisor will be required to submit an application to the dean setting out the grounds for such a request and indicating the duration of the period of confidentiality. This period would normally not exceed 2 (two) years.
- b) The dean considers the application and either approves it or refers it back to the supervisor.

#### 6. Preparation and submission of the dissertation

- a) The supervisor is responsible for advising the student with regard to the proper preparation of the dissertation.
- b) A dissertation should only be submitted with the written permission of the supervisor. Should the supervisor refuse to grant permission for submission, the candidate may request permission to submit from the dean. The dean may allow the dissertation to be submitted for examination or may turn down the request. Should the dean turn down the request, the candidate may refer the matter to the Vice-Principal responsible for research and postgraduate studies, who should convene the Postgraduate Appeals Committee to consider the matter based on reports from the candidate, the supervisor and the Postgraduate Committee. The decision of the Postgraduate Appeals Committee is final. Should the Postgraduate Appeals Committee agree to the request of the candidate, the supervisor has the right to remove his or her name from the dissertation if he or she so wishes.
- c) A dissertation is submitted to the Head: Student Administration, before the closing date for the various graduation ceremonies as announced annually.
- d) On submission of the dissertation the student should also submit a written statement by the supervisor, confirmed by the dean, approving submission of the dissertation.
- e) A student for the master's degree, on submission of the dissertation, has to declare the following in writing: "I declare that the dissertation, which I hereby submit for the degree .....at the University of Pretoria, is my own work and has not previously been submitted by me for a degree at this or any other tertiary institution."
- f) For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies of the dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration. Permission to submit the dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation is presented to the examiners in bound format or electronic format.
- g) Should the supervisor deem it appropriate, an electronic copy of the dissertation must be submitted to the Head: Student Administration for examination purposes in the format specified by the faculty and in accordance with the minimum specifications set by the Department of Library Services. The head of department may determine whether the electronic copies should be submitted instead of or in addition to the paper copies. [The specifications are available at: <http://upetd.up.ac.za/authors/publish/standards.htm#specs>]

- h) If a dissertation is accepted, but the student is required to make certain amendments in accordance with the examiners' decisions, the amendments should be made to all copies to the satisfaction of the supervisor concerned, who must submit a declaration to this effect to the Head: Student Administration before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies.
- i) In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation to the Head: Student Administration in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies. [The specifications are available at: <http://upetd.up.ac.za/authors/publish/standards.htm#specs>]

#### 7. Progress reports

- a) The supervisor must report once a year in writing to the head of department on the progress of his or her candidate.

#### 8. Intellectual property

- a) All rights in regard to intellectual property that is produced by a student during his or her studies or as a result of any research project conducted at the University or through the use of the equipment of the University, vest in the University, in terms of the contract entered into by the student and/or his or her parents or guardians at registration. This stipulation applies amongst others, where the student works under study guidance or as a member of a project team of the University. It also applies where the student does contract work for a third party as a member of a research team of the University. The University and the student may, however, agree in writing to another arrangement.
- b) A student and the University may conclude an agreement regarding the publication of a research report, a mini- dissertation, a dissertation and/or any article. Should the copyright of the research report, mini-dissertation, dissertation and/or article be the only exploitable intellectual property that arises from such research report, mini-dissertation, dissertation and/or article, the University would normally transfer the copyright to the student, subject to certain conditions. A faculty may, in consultation with the Office of the Registrar, make arrangements that apply to that specific faculty.
- c) In the absence of any agreement, the University has the right to reproduce and/or publish, in any manner it may deem fit, the research report, mini-dissertation, dissertation and/or article, and to distribute such reproduction.
- d) On publication of the research report, mini-dissertation, dissertation and/or article, or an adaptation thereof, it should be stated that it emanates from a master's study at the University. #### G.40 Compliance with degree requirements and degree privileges

With the exception of an honorary degree, a degree will be conferred on a student only if the student has complied with all the requirements for the particular degree and has reached the level of competence prescribed for the degree, and on condition that no one is entitled to any privileges pertaining to a degree before the degree has been conferred on him or her at a graduation ceremony.

#### **G.41 Conversion of master's by research to doctoral study**

##### 1. Purpose

"The defining characteristic of this qualification is that the candidate is required to demonstrate a high level of research capability and to make a significant and original academic contribution at the frontiers of a discipline or field" (2013 HEQSF, p 34).

These regulations give recognition to the achievements of exceptional postgraduate students conducting promising and competitive postgraduate research projects.

##### 2. Requirements

- a) Under special circumstances, the dean of a faculty may convert the registration of a candidate for the master's degree to registration for a doctoral degree.
- b) For such a conversion, the head of department and the supervisor must be satisfied that the student's completed work is of a standard that would be expected of a doctoral student, that the student is capable of completing a doctoral degree, and that the project is of a standard and scope appropriate to constitute a doctoral study.
- c) For such a conversion, the head of department and the supervisor must be satisfied that the student has demonstrated that he or she has the potential to fulfil the requirements of a doctoral degree without having completed a master's degree.

##### 3. Process

- a) Application for conversion may be submitted at any time during the course of study for the master's degree.
- b) The application for the conversion must include the following documents:
  - (i) A detailed progress report by the candidate of the work completed for the master's project. The report must provide proof that the results obtained thus far are of such a standard and scientific significance that conversion to a doctoral project is justified. The report should include details of presentations made at conferences and of material that has been submitted for publication and/or has been published.
  - (ii) A detailed proposal for the intended doctoral project, written by the candidate, including the objectives of the project.
  - (iii) A recommendation by the supervisor with specific comments on the ability of the applicant as a potential doctoral candidate as well as the feasibility of the conversion, especially with regard to the information provided by the candidate in his/her reports (items (i) and (ii)).
  - (iv) A recommendation by the head of department, if he or she is not the supervisor, in which the ability of the candidate as a potential doctoral candidate is confirmed.
  - (v) If the dean considers it advisable for the faculty, the candidate may be required to present a seminar to the department in support of the application. In this case, the head of department should include a report on this in his or her recommendation.
- c) The application of the candidate, together with the reports and recommendations, is submitted for consideration to the dean, (who may delegate to the Chairperson of the Faculty Postgraduate Committee) for approval. The decision should be submitted to the Faculty Board for approval.

2. A candidate may be refused admission to doctoral study by the head of department, if he or she does not comply with the standard of competence in the subject as determined by the department – provided that a candidate who does not comply with the required level of competence, may be admitted, provided that additional study assignments and/or examinations are completed.
3. A candidate, who is refused admission to doctoral study, may request that the dean reconsider his or her application for admission in terms of the prescribed requirements.

##### **G.43 Registration**

1. (S.58) – A student registers at the University at a time and in a manner determined by Council from time to time. By virtue of such registration, the student subjects himself or herself to the rules of the University.
2. Registration takes place in accordance with the regulations applicable to the particular degree for which the student registers, and on condition that compliance with the requirements of that degree is the student's responsibility.
3. After registration, a student is obliged to pay the fees due on or before the date stipulated by Council. A student who cancels his or her registration, is not entitled to any refund and remains liable for the full amount.

**G.44 Renewal of registration**

1. Students of the University are registered for one year of study, or for a shorter period determined in general or in specific cases by Council. After a year or period of study has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are prescribed by Council from time to time.
2. Subject to other faculty regulations, a student for a doctorate must complete his or her studies within three years after first registering for the degree. Under special circumstances, the dean, on the recommendation of the head of department or the Postgraduate Committee, may give approval for a limited fixed extension of this period.

**G.45 Termination of registration**

A dean may, on the recommendation of a particular Postgraduate Committee, cancel the registration of a student if the student fails to comply with the minimum requirements determined by the faculty board – on condition that a student may request that the dean reconsider the decision in terms of the set procedures. The general rule is that a doctoral student must complete his or her studies within three years, with a possible limited fixed extension, after first registering for the degree.

**G.46 Application of old and new regulations**

1. Should a regulation, according to which a curriculum has been compiled, be amended, a student who has started his or her curriculum under the old regulation and who has not interrupted his or her study, may complete such a curriculum in accordance with the old regulation – on condition that a faculty board may formulate special transitional requirements in order to enable that student to complete his or her study in accordance with the new regulation.
2. A student who has been registered for a degree programme and
  - a) who has failed to renew his or her registration for such a degree programme in the ensuing calendar year; or
  - b) who has failed a year of study; or
  - c) who has not complied with the prescribed requirements for progress in accordance with faculty regulations, is deemed to have interrupted his or her study and forfeits the right to continue studies under the old regulation.

In exceptional cases, a dean may grant such a student permission to continue his or her study in terms of such stipulations as the dean may determine.

**G.47 Concurrent registration for two fields of study and duplication of doctoral degrees**

1. With the permission of the dean(s) concerned, a student may register simultaneously for a degree, diploma or certificate and another degree, diploma or certificate, whether undergraduate or postgraduate, subject to the regulations applicable to the fields of study in question and to any other stipulations the dean(s) may prescribe on condition that there shall be no overlap in the course content of the first degree, diploma or certificate and the second degree, diploma or certificate. Such a concession may be withdrawn by the dean(s) concerned if the student does not perform satisfactorily.
2. A duplicate doctoral degree is one which is at the same level and in the same field as a degree already awarded. Applicants are allowed to enrol for a second degree at doctoral level only if the second degree is in an unrelated field.

**G.48 Minimum periods of study and requirements for a doctorate**

On the retirement or resignation of a supervisor from the University's service, he or she may, with the approval of the head of department concerned, still act as supervisor for the student for whom he or she was appointed as supervisor, in order to enable such a student to complete his or her thesis. For this purpose and for this period such a supervisor will be deemed to be an accredited lecturer of the University. This arrangement is allowed to continue until such time as the head of department deems it to be no longer appropriate. If on the retirement or resignation of a supervisor from the University's service, he or she is no longer prepared to act as supervisor for the student for whom he or she was appointed as supervisor, a new supervisor is appointed as stipulated in G.50.1(c)(i) to (iii).

The Postgraduate Committee may allow the thesis to be submitted for examination or may turn down the request. Should the Postgraduate Committee turn down the request, the candidate may refer the matter to the Vice-Principal responsible for research and postgraduate studies, who should convene the Postgraduate Appeals Committee to consider the matter based on reports from the candidate, the supervisor and the Postgraduate Committee. The decision of the Postgraduate Appeals Committee is final. Should the Postgraduate Appeals Committee agree to the request of the candidate, the supervisor has the right to remove his or her name from the thesis if he or she so wishes.

  - ii. The contents of the examiners' reports or the consolidated examiners' report may only be revealed to the candidate with the permission of the Postgraduate Committee and with the consent of the examiners.
  - iii. In the event that the candidate has to make corrections to the thesis, the relevant section(s) of the examiners' reports will be made available to the candidate by the supervisor in consultation with the head of department in order for the necessary changes to be made to the thesis.
- f) Finalisation of reports
  - i. Should the examiners' reports not reflect substantial consensus, the head of department in consultation with the supervisor, submits a report to the Postgraduate Committee with a recommended solution. Under no circumstances shall a report of any examiner be ignored.
  - ii. Should it be impossible to reach consensus, the dean, after consultation with the Postgraduate Committee and the head of department, appoints an additional external examiner who has international standing in the relevant field of research to evaluate the thesis and report to the dean on the matter.
  - iii. The Postgraduate Committee, after considering all the reports (including the report mentioned in G.50.4 (f)(ii)) makes a preliminary decision on the conferment or not of the degree. The committee may make any one of the recommendations as indicated in G.50.4 (d)(iv). The recommendation, together with all relevant documentation, is submitted to the dean.
  - iv. Should the dean concur with the recommendation, he or she takes a decision accordingly.
  - v. Should the dean not concur with the recommendation, he or she consults with the Postgraduate Committee. For purposes of this meeting, the dean becomes a member of the Postgraduate Committee and also acts as chairperson of the Postgraduate Committee. The extended committee takes a decision by means of a majority vote. Should there be a tie of votes, the dean has a deciding vote.
  - vi. After a decision has been reached about the thesis as indicated in G.50.4(f)(iii) or (iv), the Head: Student Administration has to:
    - (aa) address a letter to the examiners to thank them for their participation in the examination and for their recommendations;

With the exception of an honorary degree, a degree will be conferred on a student only if the student has complied with all the requirements for the particular degree and has reached the level of competence prescribed for the degree, and on condition that no one is entitled to any privileges pertaining to a degree before the degree has been conferred on him or her at a graduation ceremony. The doctorate is not conferred with distinction.

- b) If the faculty board accepts the recommendation, the Postgraduate Committee appoints an examination panel for a particular candidate, subject to approval by the dean.
- c) The head of department concerned compiles a list of names of potential examiners both inside and outside of South Africa from which the Postgraduate Committee chooses at least three external examiners from outside the University, all of whom must be recognised internationally as having made significant contributions to the field of study. Normally, at least two of these examiners would be from outside South Africa.
- d) No examiner should have any interest in the candidate or in any way be involved in the research that the candidate has done previously.
- e) External examiners must be from different institutions.

If the additional examiner accepts the publications, the candidate passes. If such an examiner also rejects the publications, the doctorate is not conferred.
- h) A candidate is considered only once for a doctoral degree based on publications.
- i) This degree is not conferred with distinction.
- j) After reaching a decision on whether the degree is to be conferred or not, as indicated in G.53.5(g), the Head: Student Administration has to:

  - ii. inform the examiners of the final result and indicate to them what their further involvement, if any, will be in the remainder of the process; and
  - iii. inform the candidate and the head of department of the final decision.

## V. Granting of graduate status with a view to postgraduate study

### G.54 Policy on postgraduate student cases and the recognition of prior learning

As the University has a finite capacity in most undergraduate fields (its limits have already been reached or those admitted are selected from a large number of applicants), the University's policy on the recognition of prior learning only applies to student cases at postgraduate level (including postgraduate diplomas). Furthermore, as the University's strategic objective is to be an internationally recognised research-intensive university, admission to postgraduate study by means of the recognition of a prior learning pathway is the exception rather than the rule.

Senate may:

- a) grant a graduate of another higher education institution (either in the Republic of South Africa or elsewhere) a status at the University that is equivalent to the status the student had at such other higher education institution.
- b) admit a person, who
  - i. has passed examinations at another university or institution (either in the Republic of South Africa or elsewhere) which Senate deems equivalent to or of a higher standard than the examinations prescribed for a degree at the University, and which are set as a prerequisite for admission to a particular postgraduate programme, or for the admission of such a person as a research student; or
  - ii. in another manner has reached a standard of competence Senate considers adequate for the purposes of postgraduate study or research at the University, as a student for a postgraduate degree, diploma or certificate.

It is expected of the person referred to in paragraph (b)(ii) to demonstrate the same level of applied competence (fundamental knowledge, understanding of organisation or operating environment, application of essential methods, interpretation, conversion and evaluation of text, problem solving and changing context, information gathering, presentation skills) and autonomy of learning (responsibility for own learning, decision-making, evaluation of own or others' performance, manage learning tasks and research leadership) as a student who entered through the regular entrance pathway.

The manner in which a person's standard of competence referred to in subparagraph (b)(ii) is assessed, the type of evidence required and the role-players involved in the process are determined from time to time by each faculty and form the basis for the motivation of each case to Senate.

To ensure the soundness of the procedure referred to above Senate requires an annual report from every faculty on the progress of candidates admitted under this regulation.

## Diplomas and Certificates

### VI. Diplomas and Certificates

#### G.55

**Diplomas and Certificates:** Subject to provisions to the contrary in faculty regulations, the General Regulations shall apply with the necessary changes to diplomas and certificates.

#### G.56 Application of old and new regulations

1. Should a regulation, according to which a curriculum has been compiled, be amended, a student who has started his or her curriculum under the old regulation and who has not interrupted his or her study, may complete such a curriculum in accordance with the old regulation – on condition that a faculty board may formulate special transitional requirements in order to enable that student to complete his or her study in accordance with the new regulation.
2. A student who has been registered for a diploma or certificate programme and year; and
  - a) who has failed to renew his or her initial payment for such a diploma or certificate programme in the ensuing calendar; or
  - b) who has failed a year of study; or
  - c) who has not complied with the prescribed requirements for progress in accordance with faculty regulations;
 is deemed to have interrupted his or her study and forfeits the right to continue studies under the old regulation. In exceptional cases, a dean may grant such a student permission to continue his or her study in terms of such stipulations as the dean may determine.

(Note: Only certain department's present modules on an anti- semester basis.)

**Block:** a module/modules presented as a block in a specified period of time during the academic year

**Block mark:** a mark calculated from the continuous evaluation opportunities during the course of the presentation of the relevant block

**Core module:** a compulsory module which is essential to achieving the outcomes for a particular programme

**Credit (or credit value):** a value unit linked to particular learning activities. In the case of modules, the value is related to the complexity (including the year level at which the module is taken) and the total number of learning hours needed to complete the module successfully. Credit values are also attached to the completion of qualifications: to complete a three-year bachelor's degree, students must normally be awarded a minimum of 360 credits (on average, 120 credits at each of the three-year levels, with a minimum of 72 credits at the third-year level). **It is the responsibility of the student to ensure that the diploma/degree programme complies with the total number of credits required to complete the diploma/degree.**

**Denominational training:** supplementary theological training which is arranged by the church partner itself, and which is not subject to the faculty regulations

**Discipline:** demarcated field of study

**Elective module:** a module from a group of modules which can be selected on an elective basis with the proviso that enough credits are obtained at the specific year level, as required by the relevant qualification

**Examination mark:** the mark awarded to a student in a module on the basis of an examination in a paper/papers, including practical and clinical examinations, where applicable. If necessary, the examination mark is finalised after ancillary examinations have been completed.

**Extended programme:** a programme for a degree or diploma completed over a period longer than the minimum duration for that particular degree or diploma according to regulation

**Final mark:** a mark calculated on the basis of the semester mark/year mark and the examination mark awarded to a student in a module, using a formula which is determined from time to time by means of regulations for every module, with the proviso that should no semester/year mark be required in a module, the examination mark serves as the final mark

**Fundamental module:** a module which serves as the academic basis or foundation of the core learning activities for a particular programme

**General denominational:** theological training, which is not denominational-specific

**Grade point average based on module credits (GPA):** an average mark that is calculated by multiplying the final mark achieved in a module with the credit value of that module and then dividing the sum of these values by the total of the credit values of all the modules for which a student was enrolled. The result of these calculations is a weighted average based on module credits

**GS:** a combined final mark (the average of the semester/year mark and the examination mark) of between 40% and 49% must be obtained, in order for a student to be admitted to the relevant module

**Learning hours (notional hours):** the estimated number of hours students should spend to master the learning content of a particular module or programme. The total number of learning hours for a module consists of the time needed for lectures, tutorials and practicals (contact hours), as well as for self-study, examination preparation and any other activity required by the programme (**notional hours = credits (for a module) x10**)

**Learning outcome:** the end product of a specified learning process, i.e. the learning result (specific skills) that one intends to achieve at the end of the learning process

**Level (or year level):** the academic level (year) of a module as contained in the module code, which gives an indication of the complexity of the module. A programme that culminates in a national first degree qualification normally consists of first-, second- and third-year level modules

**Module:** an independent, defined learning unit, designed to result in a specific set of learning outcomes, and which is a component of a programme

**Module code:** consists of an equal number of letters and digits, which indicate the name of the module, the year of study and the level of the module

**Module/semester/year (performance) mark:** the mark awarded to a student on the basis of tests, classwork, practical work or any other work which was completed in a module, including continuous evaluation and as prescribed by regulations

**NBT:** the National Benchmark Tests (NBTs) were commissioned by Higher Education South Africa (HESA) to assess academic readiness of first-year university students as a supplement to secondary school reports on learning achieved in content-specific courses - Academic Literacy, Quantitative Literacy and Mathematics. Go to [www.nbt.ac.za](http://www.nbt.ac.za) for more information
