During the second foundational year, students will continue with their exploration of a range of 2D, 3D and digital mediums and processes as practiced in various studio modalities, including graphic printmaking, painting, sculpture, drawing and digital laboratories. The subject will enhance students' intermediate technical abilities and artistic expression related to ideas, formal aspects, materials and techniques through the processes of conceptualisation, observation, visualisation, materialisation, experimentation, documentation, representation and presentation of artworks. Students will discover process-orientated research methods through their practice. Through themed projects and self-study, students will explore critical concepts and methods in historical and contemporary art practices and interpret their significance to their own work.
