Module credits	10.00
NQF Level	08
Programmes	PGDip (Public Health) (UPOnline)
Prerequisites	PHM 710
Contact time	Fully online
Language of tuition	Module is presented in English
Department	School of Health System and Public Health
Period of presentation	UPOnline Short Intake

Module content

Students will be presented with an overview of health and disease followed by a set of tools for disease prevention and control. They will especially be encouraged to reflect on the importance of epidemiology and surveillance systems (for disease as well as health and for risk factors). They will be tasked with the application of these tools to the prevention and control of a number of important (for South Africa) health threats, both infectious and non-infectious. The scope will be all disease conditions including psychiatric, trauma, violence, etc in addition to the conventional inclusion of infectious diseases and diseases of lifestyle. There will be a link, too, to the concept of “implications for policy”.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
