<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

### Module content

Management accounting provides managers with timely and appropriate information – firstly in order to understand the cause and behaviour of costs and to meaningfully allocate these costs to products, customers and inventories; secondly to assist in planning, budgeting and decision making; and finally in order to measure performance. This course is intended as an introduction for individuals who will plan, make business decisions and evaluate the performance of business units using information derived from the accounting system. You will understand the benefits of basic management accounting tools and techniques and learn how these concepts can be useful in different managerial decision-making situations.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
