<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

### Module content

The aim of this module is to get you to put on the multiple hats of the researcher, the innovator, the consultant and the solution diviner. By the end of this programme you should be equipped with the skills to start planning how your business could tap into the potentially lucrative low-income market. To this end the module will introduce you to key concepts, theories and best case practices around serving the emerging consumer. Following this will be immersion into a township context where students gather data to understand the low-income landscape and learn first-hand through dialogue with local businesses and individuals the necessity of qualitative market intelligence and the impracticality of 'ivory tower'-style business model development.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
