### Module content

This elective deepens the study of leadership begun in the core modules by focusing primarily on the individual as a leader, rather than leadership in the abstract, with the purpose of helping the student to understand his/her own leadership impact, how to enhance it, and how to take control of the direction in which he/she is leading others. It deals with moral issues relevant to leadership decisions globally and in South Africa, with the aim of providing a basis for being responsible for the outcomes leaders produce and how to make responsible choices. The elective provides opportunity for reflection and guides students in understanding their own leadership role better and how to become better leaders in their chosen career.
