### Module content

This elective will introduce students to the importance of industrialisation to Africa, as well as the many challenges impacting on the necessary development of the manufacturing sector in Africa. Positioning Africa within the globalised context of developed industrialised economies and rapidly industrialising developing economies in Asia, the course uses a number of case studies to unpack the central challenges of building successful manufacturing sectors on the continent.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
