Green manufacturing 823 (GIC 823)

Qualification	Postgraduate
Faculty	Gordon Institute of Business Science
Module credits	6.00
NQF Level	09
Contact time	28 contact hours per 3 week cycle
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 2

Module content

Manufacturing is often derided as a polluting activity responsible for much of the damage that has been done to the world's environment. Limiting the environmental damage of manufacturing (while continuing to benefit from the wealth it creates) has consequently become a central focus of policy makers and business executives, hence the growth of environmental laws (and taxes) governing manufacturing processes and manufactured products, and the associated setting of specific environmentally-based standards through manufacturing supply chains. This elective will focus on the latest legislative requirements governing manufacturing processes.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
