### Module content

This course is designed to provide insight into the role of Innovation and Design and an understanding of how this is achieved in practice. The course covers the types, drivers, challenges and strategies of innovation, open and closed innovation, the connection between innovation and customer value, strategy, strategic capability and execution, the theory of innovation science, the practice of Innovation in action, how to build an appropriate innovation portfolio, and the challenges of innovation within an existing operation.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
