Programmes	MPhil with specialisation in Change Leadership
Prerequisites	No prerequisites.
Contact time	28 contact hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

This module helps students to conceptualise a research design. It covers how the choice of a research design relates to the chosen analytic method (Qualitative Research, Quantitative Research or Mixed Methods). Students are expected to relate the business challenge to the research design and to justify the selection of a given design for a given problem. The objectives of the module are to help students: make informed decisions about their research design; and understand the implications of selecting a given research design in particular around the questions that can be answered.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
