Module content

This elective aims to introduce students to the theoretical foundation of modern portfolio theory, the important types of investments, the different types of investors and the diversity of investment objectives. The theoretical foundation will be understood through an introduction to the mathematics of portfolio construction and diversification which will guide students' understanding of equity portfolio management strategies and portfolio performance evaluation.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
