Module content

This elective offers you an opportunity to synthesize what you have learned from your career, life and experiences while on your MBA journey, and as it relates to your own entrepreneurial experiences and dreams. You will evaluate your own mindset and entrepreneurial intentions; identify a growth path for your entrepreneurial career or company and identify strategies for support and success. Whether you intend to enhance your own entrepreneurial ventures, or wish to support women entrepreneurs, the course will offer insights into successful “entrepreneurship”, while offering best practice guidelines on psychosocial or financial support to entrepreneurs in general and women entrepreneurs specifically.
