

University of Pretoria Yearbook 2022

Methodology of Physics and Chemistry 433 (JMN 433)

Qualification Undergraduate

Faculty [Faculty of Education](#)

Module credits 12.00

NQF Level 07

Prerequisites May only be taken in the final year of study

Contact time 4 lectures per week S2 only Q4, 4 lectures per week S1 only Q1

Language of tuition Module is presented in English

Department Science Mathematics and Technology Education

Period of presentation Semester 1 and Semester 2

Module content

Innovative and creative teaching and teaching skills in Physics and Chemistry; thematic planning; selection and use of multiple resources in Physics and Chemistry; teaching philosophy in Physics and Chemistry; reflective practices in Physics and Chemistry education.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
