Module content

This module will introduce students to the practices in museums including collecting, collections management, conservation and curation. In addition to mainstream museum collections, students will work with 'ordinary' and hidden archives found beyond the museum walls. This module is strongly focused on developing a familiarity and confidence when working with heritage objects including appropriate handling, housing and mounting for storage and exhibition; risk assessment and mitigation and general collections care theory and practice. In addition, students will be exposed to contemporary curatorial practices necessary for the practicalities of conceptualising and mounting of exhibitions and displays in a public space. They will as well be introduced to the growing field of digital curation.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
