

University of Pretoria Yearbook 2022

Air conditioning and refrigeration 780 (MLR 780)

Oualification Postgraduate **Faculty** Faculty of Engineering, Built Environment and Information Technology Module credits 16.00 **NOF Level** 08 **Programmes** BEngHons Mechanical Engineering BScHons (Applied Science) Mechanics **Prerequisites** No prerequisites. **Contact time** 21 contact hours per semester Language of tuition Module is presented in English

Period of presentation Semester 1 or Semester 2

Module content

Department

Comfort and indoor air quality. Psychometrics. System types and selection. Cooling and heating load calculations: conduction, radiation, convection, internal loads and thermal storage. Design of air handling unit, ducts, plant and reticulation. Control systems. Introduction to integrated system simulation.

Mechanical and Aeronautical Engineering

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The General Academic Regulations (G Regulations) and General Student Rules apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
