Module content

Prescribed practical training in the industry during or at the end of the second year. The aim is exposure to engineering equipment and processes, working environment of craftsmen and personnel relations. Duration at least 240 hours of work. Perform case study on personnel management and submit together with a satisfactory report on the practical training, to the Faculty Administration.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
