Psychological theory 803 (PSY 803)

Qualification	Postgraduate
Faculty	Faculty of Humanities
Module credits	25.00
NQF Level	09
Prerequisites	DS (Research Psychology)
Contact time	2 lectures per week
Language of tuition	Module is presented in English
Department	Psychology
Period of presentation	Year

Module content

The module introduces students to theories relevant to research in psychology. These theories deal with new developments related to Research Psychology, thus providing students opportunities to identify research problems and questions relevant to their own research. These theories include positive psychology, cognitive and behavioural neuroscience, environmental psychology, indigenous psychology and critical social psychology. In recognising the importance of curriculum transformation, emphasis will be placed on issues of diversity and inclusion and how this relates to research.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
