

University of Pretoria Yearbook 2022

Computer applications in civil engineering 420 (SCA 420)

| Qualification | Undergraduate |
|------------------------|--|
| Faculty | Faculty of Engineering, Built Environment and Information Technology |
| Module credits | 16.00 |
| NQF Level | 08 |
| Programmes | BEng (Civil Engineering) |
| | BEng (Civil Engineering) ENGAGE |
| Prerequisites | (SHC 410), (SIN 411), (SIN 413), (SGM 323), (SVC 412) |
| Contact time | 2 practicals per week, 2 tutorials per week, 3 lectures per week |
| Language of tuition | Module is presented in English |
| Department | Civil Engineering |
| Period of presentation | Semester 2 |

Module content

In this module commercially available computer packages will be used to develop models based on Finite Elements, Finite Differences and other approaches. Limitations and simple checks to ensure consistency of commonly used design software packages will be illustrated. Basic principles and techniques will be discussed and the effect of aspects such as meshing, element choice, boundary conditions and material properties will be investigated. Applications within the various fields of Civil Engineering will be considered. Results obtained from models will be compared to actual experimental results. This module will contain groupwork and multidisciplinary problems will be solved.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The General Academic Regulations (G Regulations) and General Student Rules apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
