

University of Pretoria Yearbook 2022

Science fundamentals for conservation 802 (THC 802)

Qualification	Postgraduate
Faculty	Faculty of Humanities
Module credits	18.00
NQF Level	09
Programmes	MSocSci (Tangible Heritage Conservation) (Coursework)
Prerequisites	No prerequisites.
Contact time	1 practical per week, 2 lectures per week
Language of tuition	Module is presented in English
Department	Historical and Heritage Studies
Period of presentation	Semester 1

Module content

An introductory chemistry module specifically tailored at enabling students with no previous science background to gain a greater insight into the chemical processes present in the practices and techniques used in conservation. Module content focusses on major conservation issues including material types, environment, cleaning and deterioration.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
