Module content

Students, guided by the programme coordinator are to choose an area of specialisation from those available at the University of Pretoria. The introductory principles of remedial conservation will be explored within the chosen area of specialisation, from treatment options and evaluation with final decision-making processes for appropriate treatment options for cleaning, stabilisation and conservation of artefacts.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
