

University of Pretoria Yearbook 2022

MScAgric (Animal Science) (Animal Breeding and Genetics) (02255013)

Department Animal Science

Minimum duration of study 2 years

Total credits 180

NQF level 09

Programme information

The curriculum for the MScAgric degree consists of a dissertation of 180 credits.

An MScAgric degree in Animal breeding and genetics offers students the opportunity to investigate livestock populations on either quantitative or molecular level. It combines population genetics and genetic improvement of livestock to improve the efficiency of production in farm animals. This program focusses mainly on the genetic diversity and evaluation of large and small stock, with an emphasis on welfare traits and sustainable farming. Projects in this program offer opportunities for inter disciplinary research.

Also consult General Academic Regulations G30-G41.

Residence

On the recommendation of the relevant head of department, the Dean may set specific residential requirements for the MScAgric degree.

Curriculum

Subject to programme-specific requirements, the curriculum for the MScAgric degree consists of the following:

- A dissertation; and
