Afrikaanse sintaksis en morfologie

In hierdie module kom gevorderde konsepte rakende sintaksis en morfologie in den brede, en Afrikaanse sintaksis en morfologie spesifiek, aan bod. Die leksikon-sintaksis-kontinuum word as vertrekpunt gebruik, en dit word gekontekstualiseer deur spesifiek te verwys na konstruksionele beskrywingsraamwerke binne die kognitiewe linguistiek. Daarna word spesifieke Afrikaanse morfologiese en sintaktiese konstruksies bespreek.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are

legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
