Module content

*Requires departmental selection

This module will focus on the integration of skills and knowledge acquired thus far, with emphasis on finding a synthesis between ideas, materials, process and theory through a studio-based research approach. Opportunities are provided for students to hone their artistic expression with a focus on experimentation towards their final year of study. Through lectures, consultations and self-study, students will explore concepts and methods in historical and contemporary art practices and their application within personal art practices. Studio projects will gradually merge into a continuous investigation of a self-motivated theme that is grounded in a theoretical understanding of concepts and methods in art. Students will reflect and write on their practice; different modes of presentation will be utilised to provide opportunities for critical reflection and debate.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
