Module content

The content of this module engages in the historical emergence of contemporary African philosophy in relation to the Western canon. The first quarter traces the history of modern western philosophy, recounting key positions in epistemology (e.g. Descartes, Kant), metaphysics (e.g. Heidegger, Putnam), ethics (e.g. Bentham, Levinas) and political philosophy (e.g. Rawls, Habermas). The content of the second quarter considers recent works in African philosophy, as critical responses to, but also independent of the Western philosophies, with regard to epistemology (e.g. Menkiti, Ikuenobe), metaphysics (e.g. Mbiti, Ramose), ethics (e.g. Tut, Gyeke) and political philosophy (e.g. Biko, Fanon).

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
