### Module content

Transformation of an organisation's employee base is more than just numbers, it is focused on the purposive and meaningful development of them. Transformation is not only an imperative from an economic perspective but is essential to both the growth of organisations and the South African economy. In this module students will be exposed to what is needed to better drive transformation from within South Africa by gaining a deeper understanding of why change is not taking place, the role of social identity and find new innovative ways to build inclusion and identity.

### Regulations and rules

### University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-

Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
