Module content

The impact enterprise is characterised by the complexity of its stakeholder relationships, making the management of partnership dynamics and cross sector collaborations a critical success factor. This course focuses on how to build and sustain effective relationships with stakeholders, which may include: government and communities at multiple levels; corporates, funders and investors; volunteers and employees; NGO's and other impact enterprises. By the end of this course, you will understand how to identify appropriate partners, initiate a relationship through delivering an effective 'ask' for resources, and use the key principles of contracting to manage relationships effectively.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
